REPORT.

TO THE RIGHT HON.

SIR GEORGE OTTO TREVELYAN, BART., M.P.,

Her Majesty's Secretary for Scotland.

GENERAL REGISTRY OFFICE OF BIRTHS, ETC.,
EDINBURGH, *9th March* 1895.

SIR,

I have now the honour to submit to you, in accordance with the requirements of the Scottish Registration Act (17 and 18 Vict. cap. 90), a General Abstract of the Births, Deaths, and Marriages registered in Scotland during the year 1894, drawn up in the usual form, with a view to its being laid before Parliament.

I have likewise the honour to submit to you, in accordance with Section 19 of the Vaccination Act (26 & 27 Vict. cap. 108), the Thirtieth Annual Report on Vaccination, which includes all the usual details relative to children whose Births were registered in Scotland during the year 1893.

I have the honour to be,

SIR,

Your most obedient Servant,

STAIR AGNEW,
Registrar-General.

REPORT TO THE REGISTRAR-GENERAL

By R. J. Blair Cunynghame, M.D., F.R.S.E.

Sir,

I beg herewith to submit the Report containing the usual details regarding the Births, Deaths, and Marriages registered during the year 1894, in the 1056 Registration Districts throughout Scotland. Appended to the General Report is the Thirtieth Report on Vaccination, in which is contained all the available information regarding the administration of the Scottish Vaccination Act, and especially in relation to the vaccination of children born in Scotland during 1893.

Table I.—Population estimated to the middle of each year, with the Number of Births, Deaths, and Marriages registered in Scotland during each of the Years 1855 to 1894, and their Proportion to the Population; also the Excess of Births over Deaths, the Number of Illegitimate Births, and their Proportion to the Total Births.

Year	Estimated Population	Births.		Deaths.	Marriages.	Excess of Births over Deaths.	Percentage to Population.			Per cent of Illeg. to Total Births.
		Total.	Illegit.				Births.	Deaths.	Marriages.

there were 3·01 births, 1·72 deaths, and 0·67 marriages. When compared with the corresponding ratios for previous years the birth and death rates are seen to be the lowest hitherto reported, the marriage rate being a trifle above that for last year (Tables I. and II.).

BIRTHS.

124,337 births were registered in Scotland during 1894, being at the rate of 3·01 per cent. or 301 for every ten thousand of the population as estimated. Of these 63,866 are males, and 60,471 females.

Tables IV. and V. afford information as to the number and proportion of births in the five groups of Registration districts into which Scotland is divided. In the Principal Town districts 52,083 births were registered, being at the rate of 3·16 per hundred of the estimated inhabitants, 26,727 being males, and 25,356 females; in the Large Town districts the total number is 17,273, at the rate of 3·24 per hundred of population, males 8,876, females 8,397; in the Small Town districts the births are 27,108, or 3·10 per hundred of population, the males 13,861, the females 13,247; in the Mainland-Rural districts the total births are 25,081, or 2·66 per hundred of the inhabitants, males 12,946, females 12,135; and in the Insular-Rural districts they number 2,792, or 2·24 per hundred of population, the males 1,456, the females 1,336. The highest birth-rate, therefore, occurred in the Large Town districts, followed in sequence by that in the Principal Town districts, Small Town districts, Mainland-Rural districts, and Insular-Rural districts.

9,058 of the births were illegitimate, equivalent to 7·28 per cent. of all. The rate varies in each district, being 9·5 per cent. in the Mainland-Rural districts, 7·1 per cent. in the Principal Town districts, 6·8 per cent. in the Small Town districts, 5·8 per cent. in the Large Town districts, and 5·3 per cent. in the Insular-Rural districts.

Table VI. shows the proportion of illegitimate to all births in the eight divisions into which Scotland is geographically divided, and in each county. The highest rate among the former occurs in the North-Eastern Division, where 12·8 per cent. of the births were illegitimate, followed by the Southern, with 12·1 per cent.; the Northern, with 7·8 per cent.; the East-Midland, with 7·5 per cent.; the South-Eastern, with 7·1 per cent.; the

cent. in Dumfries, 12·4 per cent. in Aberdeen, 12·7 per cent. in Kirkcudbright, 12·9 per cent. in Kincardine, 13·2 per cent. in Banff, 13·4 per cent. in Caithness, 14·6 per cent. in Wigtown, and 14·9 per cent. in Elgin.

Of the total 124,337 births during the year, 63,866 were boys, and 60,471 girls, so that for every hundred of the latter sex 105·6 male infants were born. The highest proportion of boys born to girls occurs in the Rural districts, being in both 109·0 to 100; the lowest is in the Small Town districts, 104·6 to 100.

Births were registered throughout the country in largest numbers during October, when the rate was 357 per diem, April coming next with 350 daily, June with 348, January, March and May each with 346, November with 343, July with 341, December with 338, February with 333, August with 332, and September with 305. The daily average number of births registered during the year was 341. The average daily number of illegitimate births was 14.

DEATHS.

71,112 deaths were registered throughout Scotland during 1894, equivalent to 1·72 per cent., or 172 in each ten thousand of the population as estimated, and is the lowest death rate as yet recorded.

From Table V. it is seen the heaviest rate occurred in the Principal Town districts, where it is 187 per ten thousand of population, followed by the Large Town districts, with a mortality-rate of 174, the Small Town districts with one of 168, the Mainland-Rural districts with one of 153, and the Insular-Rural districts with one of 152, proportions which, when compared with the corresponding for last year, show a decrease in each case, with the exception of the Insular-Rural districts.

The average daily number of deaths as registered in Scotland for each month was largest during January, 242, followed by February with 218, December with 216, March with 212, April with 198, November with 197, May with 192, June with 188, October with 187, July with 171, August with 164, and September with 153. The average number of daily deaths for the year was 195.

MARRIAGES.

27,561 marriages were registered in Scotland during the year, being at the rate of 67 for every ten thousand of estimated population, and is a slight increase upon that for the previous year.

The marriage rate is highest in the Principal Town districts, where it is in the ratio of 83 per ten thousand of the inhabitants of the same, in the Large Town districts the rate is 67, in the Small Town districts it is 59, in the Mainland-Rural districts it is 50, and in the Insular-Rural districts it is 33 per ten thousand.

The average number of daily marriages registered each month was 138 during June, 127 during December, 110 during January, 101 during July, 71 during April, 61 during November, 57 during September and October, 52 during August, 51 during March, 49 during February, and 28 during May. The daily average for the year was 75.

EIGHT OF THE PRINCIPAL TOWNS OF SCOTLAND.

The information upon which the remarks are founded in the following sections of the report is furnished by the Registrars of the undernoted Principal Towns, viz., Glasgow, Edinburgh, Dundee, Aberdeen, Leith, Paisley, Greenock, and Perth, in their weekly returns, and it is believed the facts which relate to them apply in a great extent to the country at large.

BIRTHS IN THESE EIGHT TOWNS.

The number of births registered in the above towns during the year is 46,099, giving a rate of 311 in every ten thousand of their estimated population. The highest rate occurs in Glasgow, 330 per ten thousand; followed by Greenock, with one of 322; Paisley, with one of 317; Aberdeen, with one of 316; Leith, with one of 315; Dundee, with one of 302; Edinburgh, with one of 267; and Perth, with one of 253.

Of the total 46,099 births, 3,427 or 6·6 per cent. are illegitimate; the highest rate occurring in Aberdeen, 9·5 per cent., followed by Dundee, with one of 9·3 per cent.; Edinburgh, with one of 8·3 per cent.; Perth, with one of 7·4 per cent.; Glasgow, with one of 6·8 per cent.; Greenock, with one of 6·4 per cent.; Paisley, with one of 6·2 per cent.; and Leith, with one of 4·9 per cent. This same Table VIII. also shows the percentage of illegitimate births to the possible mothers in these towns, *i.e.*, spinsters and widows between the ages of 15 and 45 years. The highest rate among these is in Aberdeen, where 1·90 children were born out of wedlock for every hundred possible mothers as stated; the rate is 1·70 per cent. in Greenock; 1·66 per cent. in Dundee; 1·65 per cent. in Glasgow; 1·35 per cent. in Leith; 1·25 per cent. in Edinburgh and in Paisley; and 1·19 per cent. in Perth.

Of the total 46,099 children born in the towns during the year, 23,625 were of the male sex, and 22,474 of the female sex, the proportion of boys to girls being as 105·1 is to 100.

DEATHS IN THESE EIGHT TOWNS.

The deaths registered in these towns during the year are 28,110 in number, of these 14,145 are males, and 13,965 females; their total mortality-rate being 191 per ten thousand of their estimated population.

Table VIII. indicates the death rate in Glasgow to be the highest, viz., 199 per ten thousand of the inhabitants of the same; followed by Greenock, with one of 192; Perth, with one of 190; Dundee, with one of 189; Aberdeen, with one of 186; Paisley, with one of 179; Edinburgh, with one of 175; and Leith, with one of 168. When these ratios are compared with the corresponding for 1893, it is seen in Table IX. how, in each case, the rate for the present year is under that for the former, with the exception of Aberdeen, in which there is a very slight increase, and in every case the rate for 1894 is under that of the mean for the last ten years.

Table X. refers to children under five years of age, and gives the estimated number of such, alive during the year, the number of deaths at the same

TABLE VII.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight Principa Towns of Scotland, during each of the Years 1855–1894.

Edinburgh . .	270,588	7,223	2·67	47,978	600	8·3	1·25	4,745	1·75	2383	0·88
Dundee . . .	158,719	4,801	3·02	26,914	447	9·3	1·66	2,992	1·89	1142	0·72
Aberdeen . .	131,642	4,161	3·16	20,698	394	9·5	1·90	2,454	1·86	1189	0·90
Leith . . .	72,003	2,266	3·15	8,203	111	4·9	1·35	1,213	1·68	564	0·78
Paisley . . .	70,363	2,227	3·17	11,132	139	6·2	1·25	1,258	1·79	502	0·71
Greenock .	62,400	2,008	3·22	7,508	128	6·4	1·70	1,200	1·92	437	0·70
Perth . . .	30,232	766	2·53	4,779	57	7·4	1·19	574	1·90	260	0·86

age, with the percentage of such deaths, both to the above number alive, as also to the total deaths. Thus in Dundee 64 in every 1000 of the children presumably living under five years of age died during the year; in Glasgow, the number was 61; in Aberdeen, it was 59; in Greenock, it was 58; in Perth, it was 53; in Edinburgh, it was 50; in Paisley, it was 49; and in Leith, it was 47. And again, of the total deaths in these eight towns 39·6 per cent. were children under five years of age in Dundee; 39·2 per cent. in Aberdeen; 38·9 per cent. in Glasgow; 38·0 per cent. in Greenock; 36·1 per cent. in Leith and in Paisley; 30·7 per cent. in Perth and 30·6 per cent. in Edinburgh.

Tables XI. and XII. present the rate of mortality due to various classes of disease, and to some of the more frequent special causes of death in each of the eight towns, such rate being computed in the former table with reference to the estimated population, and in the latter with reference to the total deaths from all causes.

The percentage of deaths due to Zymotic causes was 0·261 on the total estimated population of the towns, and is equal to 13·71 per cent. of the total mortality occurring in the same. Such diseases proved fatal to 0·286 per cent. of the population in Perth; to 0·283 per cent. of that in Glasgow; to 0·273 per cent. of that in Aberdeen; to 0·258 per cent. of that in Dundee; to 0·249 per cent. of that in Greenock; to 0·244 per cent. of that in Leith; to 0·226 per cent. of that in Paisley; and to 0·218 per cent. of that in Edinburgh. The percentages of the like deaths to the total deaths were 15·04 in Perth; 14·07 in Glasgow; 14·59 in Aberdeen;

TABLE IX.—Percentage of Deaths to the Population in each of Eight of the Principal Towns of Scotland during each of the Years 1884–1894.

Towns.	Percentage of Deaths to the Population.

TABLE X.—Deaths of Children under Five Years of age in each of Eight of the Principal Towns of Scotland during the Year 1894.

Towns.	Estimated Number of Living Children under 5 years in 1894.	Deaths under 5 years of age.	Percentage of Deaths under 5 years.	Percentage of Deaths under 5 years to the Total Deaths.
Glasgow	67,102	5,326	6·11	38·9
Edinburgh	29,022	1,453	5·01	30·6
Dundee	18,577	1,135	6·38	39·6
Aberdeen	16,171	961	5·94	39·2
Leith	9,338	438	4·69	36·1
Paisley	9,169	454	4·95	36·1
Greenock	7,885	455	5·77	38·0
Perth	3,347	176	5·26	30·7

14·43 in Leith; 13·67 in Dundee; 12·83 in Greenock; 12·64 in Paisley; and 12·41 in Edinburgh.

In Glasgow, 4·27 in every 100 deaths were ascribed to Hooping-Cough; 1·83 to Measles; 1·79 to Diphtheria; 1·76 to Diarrhœa and Dysentery; 1·49 to Scarlet Fever; 1·18 to Fevers (of which 1·10 is Enteric and 0·07 Typhus); 0·46 to Influenza; and 0·04 to Small Pox.

In Edinburgh, 2·99 per cent. of the deaths during the year were due to Hooping-Cough; 1·96 per cent. to Diphtheria; 1·50 per cent. to Diarrhœa and Dysentery; 1·39 per cent. to Scarlet Fever; 1·20 per cent. to Small Pox; 0·86 per cent. to Fevers (0·84 of these being Enteric); 0·70 per cent. to Influenza; and 0·23 per cent. to Measles.

In Dundee, Hooping-Cough is the cause of 3·81 per cent. of the total deaths; Measles of 2·71 per cent.; Diarrhœa and Dysentery of 2·54 per cent.; Diphtheria of 1·27 per cent.; Fevers of 0·84 per cent. (0·64 Enteric and 0·20 Typhus); Scarlet Fever of 0·50 per cent.; Influenza of 0·30 per cent.; and Small Pox of 0·03 per cent.

In Aberdeen, 4·24 per cent. of the total mortality was due to Hooping-Cough; 2·73 per cent. to Measles; 1·79 per cent. to Diarrhœa and Dysentery; 1·51 per cent. to Diphtheria; 1·14 per cent. to Scarlet Fever; 0·49 per cent. to Fevers and to Influenza; and 0·04 per cent. to Small Pox.

TABLE XI.—Percentage of Deaths from different Diseases to the Population in each of Eight of the Principal Towns of Scotland during the Year 1894, allowing for the Causes not specified.

In Leith, Hooping-Cough caused 4·95 per cent. of the deaths; Small Pox, 3·96 per cent.; Diphtheria, 1·81 per cent.; Fevers, 1·07 per cent.—all Enteric or Typhoid;—Diarrhœal Affections, 0·91 per cent.; Scarlet Fever, 0·25 per cent.; and Measles and Influenza, each 0·16 per cent.

In Paisley, Hooping-Cough caused 3·10 per cent. of the deaths; Diarrhœa and Dysentery, 2·15 per cent.; Diphtheria and Fevers, each 1·59 per cent. (1·35 of the latter Typhoid); Scarlet Fever, 1·27 per cent.; Measles, 0·64 per cent.; and Influenza, 0·56 per cent.

In Greenock, 3·83 per cent. of the total mortality is due to Hooping-Cough; 2·17 per cent. to Diarrhœa and Dysentery; 1·08 per cent. to Diphtheria; 1·00 per cent. to Influenza; 0·67 per cent. to Scarlet Fever; 0·50 per cent. to Fevers—half of these are Enteric;—0·42 per cent. to Measles; and 0·08 per cent. to Small Pox.

In Perth, 4·42 per cent. of the deaths are ascribed to Hooping-Cough; 2·48 per cent. to Diarrhœal Affections; 2·30 per cent. to Diphtheria; 1·77 per cent. to Scarlet Fever; 0·88 per cent. to Influenza; and 0·53 per cent. to Measles and Fevers—all of the latter being Typhoid.

In the above eight towns collectively, there were registered 1114 deaths from Hooping-Cough, being at the rate of 3·96 per cent. of the total mortality, or 7·6 in every ten thousand of their inhabitants. Diarrhœa and Dysentery caused 509 deaths, equal to 1·81 per cent. of all, and 3·5 per ten thousand of the population. Diphtheria caused 481 deaths, at the rate of

TABLE XII.—Percentage of Deaths from different Diseases to the Total Deaths in each of Eight of the Principal Towns of Scotland during the Year 1894, allowing for the Causes of Death not specified.

1·71 per cent. of the total deaths, and 3·3 in every ten thousand of the population. Measles caused 427 deaths, or 1·52 per cent. of all, and equal to 2·9 in each ten thousand of population. Scarlet Fever caused 350 exits, equal to 1·25 per cent. of all the deaths, and 2·4 as to population. Fevers caused 281 deaths, at the rate of 1·00 per cent. of all deaths, and in the proportion of 1·9 in every ten thousand of the inhabitants; of these Typhoid caused 255 deaths; Typhus, 19; Simple or Ill-Defined, 6; and Cerebro-Spinal Fever, 1. Influenza caused 143 deaths, equal to 0·51 per cent. of all, and 1·0 per ten thousand of population.

Small Pox caused 113 deaths in these towns, equivalent to 0·40 per cent. of all, and 0·8 in every ten thousand of their population; 5 of these occurred in Glasgow; 57 in Edinburgh; 48 in Leith; and 1 each in Dundee, Aberdeen, and Greenock, there being none in Paisley and Perth.

Zymotic diseases together caused 3853 deaths, being 1858 fewer than last year, the diminution chiefly observable in the number of deaths from Measles, Scarlet Fever, Influenza and Diarrhœal affections. Syphilis caused 108 deaths; Erysipelas 127; and Puerperal Fever 104.

Diseases of a constitutional nature caused 5616 deaths, 19·98 per cent. of the total mortality, and equal to 38·1 in every ten thousand of the estimated population. Rheumatic Fever and Rheumatism caused 135 deaths; Cancer caused 1119 deaths, equal to 3·98 per cent. of all, or 7·6 per ten thousand of the population; being most marked in Edinburgh, Aberdeen and Dundee. Five deaths are ascribed to Gout. Phthisis caused 3019 deaths, 10·74 per cent. of all deaths, and at the rate of 20·5 per ten thousand of the population; and most marked in Glasgow, Dundee, Greenock and Leith. Tabes Mesenterica caused 322 deaths. Tubercular Meningitis 503 deaths; and other forms of Tuberculosis and Scrofula 343.

Diseases of the nervous system caused 3,200 deaths, at the rate of 11·38 per cent. of the total deaths, and 21·7 per ten thousand of the inhabitants. The percentage of such deaths to the total mortality was 12·24 in Paisley; 12·22 in Aberdeen; 12·04 in Perth; 11·79 in Leith; 11·53 in Dundee; 11·50 in Greenock; 11·21 in Glasgow; and 10·94 in Edinburgh; the rate per ten thousand of the estimated population of each town being 22·9 in Aberdeen and in Perth; 22·5 in Glasgow; 22·4 in Greenock; 21·9 in Dundee and in Paisley; 19·9 in Leith; and 19·2 in Edinburgh.

From diseases of the Circulatory Organs 2479 deaths are registered, equal to 8·82 per cent. of all the deaths in those towns, and at the rate of 16·8 per ten thousand of their population. Edinburgh shows a percentage on the gross mortality of 10·85; Perth one of 10·62; Leith one of 10·22; Paisley one of 10·17; Aberdeen one of 8·76; Dundee one of 8·49; Greenock one of 8·33; and Glasgow one of 7·92; the rate per ten thousand of the inhabitants of each town being 20·5 in Perth; 19·1 in Edinburgh; 17·3 in Leith; 16·8 in Greenock; 16·4 in Aberdeen; 16·0 in Dundee; 15·9 in Glasgow; and 14·2 in Paisley.

Diseases of the Respiratory Organs caused 5434 deaths, equivalent to 19·33 per cent. of all the deaths, and 36·9 in every ten thousand of the estimated population of the towns. In Dundee 20·79 per cent. of all the deaths were of this nature, followed by Paisley in which they were 20·03 per cent.; in Glasgow 19·80 per cent.; in Aberdeen 19·32 per cent.; in Greenock 19·08 per cent.; in Edinburgh 18·10 per cent.; in Leith 16·49 per cent.; and in Perth 15·93 per cent. When computed as to the population 39·8 per ten thousand succumbed in Glasgow during the year from such diseases; 39·3 in Dundee; 37·1 in Greenock; 36·1 in Aberdeen; 35·9 in

Paisley; 31·8 in Edinburgh; 30·5 in Perth; and 27·8 in Leith. Bronchitis caused 2457 deaths, equal to 8·74 per cent. of the whole mortality; Pneumonia caused 2158 deaths; Pleurisy 134; and Croup 197.

From diseases of the Digestive Organs 1917 deaths occurred, at the rate of 6·82 per cent. of all deaths, and equal to 13·0 per ten thousand of the population. Enteritis caused 385 deaths; Peritonitis 294; and Diseases of the Liver 257.

Diseases of the Urinary Organs caused a mortality of 777, at the rate of 2·76 per cent. of all, and equivalent to 5·3 in every ten thousand of the inhabitants. Acute Nephritis caused 194 deaths; and Bright's Disease 306.

Premature Births account for 803 deaths; Congenital Malformations for 171; and Old Age for 916.

Atrophy and Debility is the assigned cause of 930 exits; and of sudden deaths with no ascertained cause or otherwise so ill-defined and not specified there are 170.

The lives of 1051 individuals ended by Violence, equal to 3·74 per cent. of the whole, and in the ratios of 7·1 per ten thousand of population. Of these 981 were due to Accident or Negligence; 6 to Homicide; and 64 to Suicide. Of these latter 26 died by Hanging; 12 by Drowning; 6 by Poison (2 by Carbolic Acid; and 4 poisons not stated); 12 by Cut Throat; 1 by Jumping out of a window; 6 by Gun Shot; and 1 not stated.

87 deaths were due to Intemperance.

Of these eight towns 17 males and 68 females died during the year at ages of 90 and upwards. Of these 1 male and 1 female was 95 years, two females were 98 years, and two others were 99 years of age at death.

MARRIAGES IN EIGHT TOWNS.

12,546 marriages were registered in these towns during the year, being at the rate of 85 per ten thousand of their population as estimated. In Glasgow and in Edinburgh 88 marriages took place in every ten thousand of their inhabitants; in Dundee 72; in Aberdeen 90; in Leith 78; in Paisley 71; in Greenock 70; and in Perth 86.

WEATHER AND ITS INFLUENCE ON MORTALITY.

The following remarks on the weather of the year are extracted from the Notes of the Astronomer-Royal, which appear in the Registrar-General's Quarterly Reports:—

January was characterised by a low pressure with a large range, a mean temperature slightly under the average, with a mean daily range about a degree above it, and wind, as regards direction, nearly the average, but of a force much above it.

February was characterised by a rainfall, heavy beyond precedent, being 165 per cent. above average of the month; by rapid and large fluctuations of the barometer; by a barometric monthly range unusually large, being only exceeded by the Februarys of 1860 and 1867; and by a succession of wide spread storms of wind, frequently very violent.

March was characterised by a mean temperature and daily range both

greatly above the average, a marked predominance of W., S.W., S., and S.E. winds, and a deficiency of E., N.E., N., and N.W. winds; and an excess of rainfall in the west, and a deficiency in the east of the country.

April was unusually warm, with a diurnal range nearly the average,

TABLE XIII.—Monthly Mortality and Mean Temperature in Scotland during 1894, compared with the Mean of the Ten Years 1881–1890.

MONTHS.	YEAR 1894.			1881-1890.	
	Mean Temperature.	Actual Deaths.	Proportion to 12,000 per annum or 1000 per month.	Monthly Proportion of Deaths.	Mean Temperature.

with a mean barometric pressure slightly under, and a monthly range considerably under the mean, with an unusual prevalence of E. and S.E. winds.

May was remarkable for a very low mean temperature, an unusual prevalence of northerly winds blowing with a force also unusual, and a large rainfall, more than usually heavy at eastern stations.

June was characterised by a temperature under the average, by a very irregular distribution of the rainfall, falling on three days more than usual for this month, and by a distribution of pressure above the average, the excess being greater at western than at eastern stations, and this excess accompanied with an excess of east winds.

July was, on the average, a month with pressure a little under the average, but range of pressure a good deal above it; temperature above the average range of temperature; humidity and rainfall, the average, three days of rain more than usual, and an excess of E. and S.E. winds.

August was characterised by a large rainfall, distributed over a larger number of days than usual; a mean temperature under the average; a barometric pressure under the average, but with a monthly range considerably above it; and with a marked prevalence of W.N.W. and N. winds.

September, as compared with the previous thirty-eight Septembers, showed a higher mean barometric pressure, a lower monthly barometric range, a smaller rainfall, and a much greater predominance of northerly and easterly winds than any recorded during these years.

October was characterised by a barometric pressure and range considerably above the average, a temperature fully a degree under, and mean daily range nearly two degrees above the average, and, just as in the preceding month, a marked predominance of easterly and northerly winds.

November was remarkable for a mean temperature higher than any recorded for this month by the Society. Barometric pressure was rather

low, but much lower than the average at northern than at southern stations, with the accompanying result of an unwonted predominance of south-westerly winds, blowing with a mean force greatly above the average.

December was remarkable for a temperature considerably above the average, a barometric pressure above, and range very much above the average, a rainfall under the average; and for two storms, one on the 21st–22nd, and the other on the 28th–30th, which will be long remembered for their severity and disastrous effect on sea and land.

Table XIII. admits of comparison being made between the mean temperature and proportionate mortality of each month of 1894, as also for a decennial period (1881–1890). This shows the mean temperature for the year under review to be somewhat higher than the mean of the ten years, and that the mean temperature of six of the twelve months, viz., February, March, April, July, November and December, is above the mean of the same months for the longer period, the mean temperature of the remaining six months being below. The greatest proportionate mortality occurred during the months of January, December, March and February; the lowest during July, August, and September. Further information of like nature deduced from observations reported from fifty-five stations of the Meteorological Society of Scotland is to be found on Table XIV.

Table XV. gives among other things a statement as to the chief meteorological phenomena during each month of the year in Eight of the Principal Towns, with the deaths from some of the more important miasmatics, as also of some other diseases for the sake of comparison.

There were 113 deaths from Small-pox in these towns during the year, 10 of them being registered during January, 8 during February, 4 during March, 9 during April, 9 during May, 25 during June, 11 during July, 2 during August, 2 during September, 3 during October, 15 during

November, and 15 during December. Deaths from Measles were registered in largest number during November, 67, and December, 168; being at the minimum during January and February. Scarlet Fever was also most fatal during the months at the end of the year, 38 in November, and 41 in December; least so during August, in which 15 deaths were registered from it. The mortality from Hooping-Cough was most marked during the months of April, 131; May, 145; February, 152; March, 155; and January, 182; least so during August, 43; September, 40; July, 30; and October, 27. Diphtheria claimed most of its victims during January, 44; October, 46; and February and September each 49; fewest during June and July, with 29 in each. Fevers were most pronounced during April, May and October; least so during June and July.

Phthisis caused its greatest mortality during April, 279; January, 282; March, 290; and May, 331; its lowest during September, 175; and November, 197; and Croup was most fatal during the months at each end of the year.

TABLE XVII.—Monthly Deaths at Four Periods of Life in Eight of the Principal Towns of Scotland during the Year 1894, and Proportion at each Age in every Hundred Deaths per Month.

Months.	Actual Number of Deaths in 1894.					Proportion at each Age in every Hundred Deaths per Month.

November	1,188	221	761	508	2,678	1,121
December	1,217	217	826	520	2,780	1,164
Year	10,653	2,567	9,387	6,048	28,655	12,000

The more acute diseases of the Respiratory Organs are naturally decidedly most fatal during the winter and spring months; least so during the warmer months of summer; as also is the case with Heart affections and Diseases of the Brain, all more or less influenced by climatic conditions.

Tables XVII. and XVIII. show the relative monthly mortality at different ages among the inhabitants of the eight towns under consideration. Thus with children (0–5 years of age), the largest proportion died during the months of January, November, and December. The mortality was at its minimum in July and September.

Among Adolescents (5–20 years), deaths were most frequent in November, May, and April; the minimum mortality among them being in September, July, and August.

Adults (20–60 years), suffered most during May and March; least so during September.

Among the Aged, those over 60 years, February and January were the months in which most succumbed; the fewest during July and August.

Among the whole inhabitants of these Eight Towns the deaths during each month were in the following order of fatality:—January, December, November, February, March, April, May, October, June, July, August, and September.

THIRTIETH ANNUAL REPORT

ON THE

VACCINATION OF CHILDREN

BORN IN SCOTLAND DURING 1893.

The Vaccination Returns for the year 1893 show that of the 127,155 children born in Scotland, 108,117, or 85·028 per cent. were successfully vaccinated. In 2474 cases certificates of postponement were granted by medical officers, being at the rate of 1·946 per cent. of the whole births;

in 509 cases the children were certified to be insusceptible of vaccination in consequence of some constitutional peculiarity; being at the rate of 0·400 per cent.; 273 children, or 0·215 per cent. were insusceptible from having been vaccinated, but by persons who were not qualified to grant certificates to that effect; and one child was insusceptible from having had Small-pox; 12,781 children, or 10·051 per cent. of the whole births, died before vaccination; and 3,000 children, or 2·359 per cent., were removed from the district in which they were born, before vaccination, or in some other way were unaccounted for. The proportion of children constitutionally insusceptible, and of those who died before vaccination, are considerably over the average for the preceding ten years.

In Table XX. the number and proportion of children who died unvaccinated are omitted, and the proportion given to the total children living. From this Table it may be gathered that of the 114,374 children alive at the age of six months, 108,117 or 94·529 per cent. were successfully vaccinated; in 2474 cases, or in 2·163 per cent., vaccination was postponed; in 509 cases, or in 0·445 per cent., the children were certified to be constitutionally insusceptible; in 273 cases, or in 0·239 per cent., the children were insusceptible from previous vaccination by persons who were not qualified to grant certificates, and in one case the child was insusceptible in consequence of having had Small-pox. In 3000 cases, or in 2·633 per cent., the children were removed from the district in which they were born, or were otherwise unaccounted for.

Table XXI. shows the number of deaths from Small-pox in Scotland for each year from 1855 to 1894, the numbers for the last two years, how-

ever, being those which occurred in Eight of the Principal Towns only.

During the year 1894, 113 deaths were caused by Small-pox in Eight of the Principal Towns, particulars of the deaths in which are given in the Monthly Reports. Of these 5 occurred in Glasgow, 57 in Edinburgh, 1 n Dundee, 1 in Aberdeen, 48 in Leith, and 1 in Greenock. Table XXII. shows the number of deaths from Small-pox for three periods of ten years, viz., from 1865–74, 1875–84, and 1885–94, and also for the ten years before the Vaccination Act came into operation, viz., 1855–64.

I have the honour to be,

SIR,

Your most obedient Servant,

R. J. BLAIR CUNYNGHAME, M.D.

STATISTICAL DEPARTMENT,
15*th February* 1895.

XI.—ABSTRACT of the METEOROLOGY of Eight of the Principal Towns of Scotland during the several Months of the Year 1894.

Mean Height above Sea-level, 136 feet. Mean Latitude, 56° 12′. Mean West Longitude, 3° 30′.

1894.	BAROMETER.		SELF-REGISTERING THERMOMETER.						HYGROMETER.		DEDUCTIONS from Glaisher's Tables, 2nd Edit.				RAIN.		WINDS.									Mean Pressure on square foot.
	Mean at 32° and Sea-level.	Monthly Range.	Highest in Month.	Lowest in Month.	Mean Temperature.	Monthly Range.	Mean Daily Range.	Greatest Daily Range.	Dry Bulb, or Mean Temp. of Air.	Wet Bulb, or Temp. of Evaporation.	Dew-point Temperature.	Elastic Force of Vapour.	Wt. of Vapour in Cubic Foot of Air.	Humidity. Sat. 100.	Number of Days it fell.	Amount.	Number of Days it blew in certain Directions.								Calm or Variable.

N.B.—Districts containing Parliamentary and Royal Burghs are printed in capitals, thus EDINBURGH. Districts containing Towns of 2000 Inhabitants and upwards are printed in small capitals thus CARLUKE.
An asterisk "*" is prefixed to those Districts which have different names from the Parishes in which they are situated, or are comprised of more, or parts of more than one Parish, and the component parts of these Districts will be found on page 43.
A dagger "†" is prefixed to those Districts which consists of only a part of the Civil Parish of the same name.
‡ Registration District of Whalsay and Skerries was subdivided as at 1st January 1893.
§Vaccination Returns not received.

No. of District.	REGISTRATION DISTRICTS.	POPULATION. Census 1881.	POPULATION. Census 1891.	BIRTHS, DEATHS, AND MARRIAGES. 1894. Births.	Deaths.	Marriages.	VACCINATIONS, 1893. Successfully Vaccinated. APPENDIX.

VACCINATIONS, 1893.

EXTRACTS FROM THE REGISTRARS' NOTES RELATIVE TO THE WORKING OF THE VACCINATION ACT.

I. NORTHERN DIVISION.

2. ORKNEY.

14. DEERNESS.—Owing to the distance from Kirkwall, a two months postponement is unsuitable. The reason for an extension of the time to six months still continues.

3. CAITHNESS.

43. WICK. — Diphtheria and Typhus and Typhoid Fevers have been very prevalent, and retarded vaccination much.

II. NORTH-WESTERN DIVISION.

5. ROSS AND CROMARTY.

Mainland.

75. (1) LOCHBROOM.—Frequent changes have occurred during the past year in the office of Vaccinator, and this mainly accounts for the number in Col. 7. A settled Medical Officer has now however been secured, and we may expect the number unaccounted for to be reduced. On the whole considering the circumstances of this large parish, vaccination is wonderfully well attended to.

Insular.

86*a* BARVAS—The Medical Officer of this parish is not in the habit of vaccinating during the winter months, owing to the inclemency of the weather, hence the large number entered in Col. 7.

6. INVERNESS.

Mainland.

92a (1) BOLESKINE.—One of the two entered under Col. 7 was postponed till 17th December last, the other is said to be vaccinated, but not yet certified.

95. DAVIOT AND DUNLICHTY. — Vaccination well attended to, considering that no Medical Practitioner resides within the bounds of the parish.

101. KILTARLITY. — The cases returned as unaccounted for are probably all successfully vaccinated, though, owing to the continued serious illness of the Medical Officer for the parish, certificates have not yet been sent in.

Insular.

110. (1) DUIRINISH.—The District being wide and difficult to work, and the occasional severity of the weather is the explanation of the large number in Col. 7. In November last the Doctor was unable to vaccinate at Glendale on the day he appointed in consequence of bad weather. There are however several children vaccinated, but not certified as parents do not always turn out on the day appointed for certification, and others are at such distance that they blankly refuse to come to the appointed place. Altogether great difficulty is experienced in getting the Act carried out, and nothing can be done in weather like this.

111. (1) NORTH HARRIS. — The reason why the number in Col. 7 is so great is that an epidemic of Hooping Cough broke out about the end of summer, which was followed by Scarlet Fever, of which several cases still remain.

111. (2) SOUTH HARRIS.—The probable reason for the large number in Col. 7 is the prevalence of epidemics.

117. (2) SOUTH SNIZORT. — Owing to the energy of the Medical Officer for the district the vaccination for the year is complete.

118. (1) BENBECULA. — Owing to the bad weather a number of children were unable to attend the Doctor at his last visit to the district.

118. (3) BOISDALE.—Influenza of a mild type has been prevalent for the last two years, and consequently parents are reluctant to have their children vaccinated. A good number of those entered in Col. 7 are vaccinated, but the necessary certificates have not been obtained.

NORTH-EASTERN DIVISION.

9. BANFF.

159. KEITH. — Bronchitis and Scarlet Fever

were prevalent in the end of 1893, and the first months of 1894, and the large number who died before vaccination is chiefly due to these causes.

10. ABERDEEN.

226. NEWHILLS.—There is a growing tendency to put off vaccination, few children being vaccinated before six months elapse, and frequent notices are required. Postponement Certificates are sometimes renewed 3 or 4 times.

IV. EAST-MIDLAND DIVISION.

12. FORFAR.

302. LINTRATHEN.—The birth not accounted for is that of the daughter of a tinker, and who was born in a wood.

13. PERTH.

330. AUCHTERGAVEN.—Some of the postponements are in consequence of the presence of Scarlatina. There is no wilful evasion of the law.

14. FIFE.

411. BURNTISLAND. — The closing of the Burntisland Oil Company's Works, and consequent removal of miners and their families has increased the number of cases unaccounted for.

V. SOUTH-MIDLAND DIVISION.

19. ARGYLL.

Mainland.

534. (2) STRACHUR.—Postponements after the lapse of six months on the ground of unfitness are on the increase.

Insular.

543. KILMENY.—With regard to the four cases entered in Col. 7 two have left the district, and the other two are understood to have been successfully vaccinated, but certificates to that effect have not yet been received.

VI. SOUTH-WESTERN DIVISION.

22. AYR.

578. AYR. — An unusual number of children died in 1893 before vaccination, but no special reason can be assigned for this, as there was no epidemic. Of the parents of the children unaccounted for, 4 were mothers of illegitimate children, and several of the fathers were labourers. In all probability two of these children would be vaccinated elsewhere.

583. (2) RANKINSTON.—Steps are being taken by the Inspector of Poor to find out the residence of the parents of the child entered in Col. 7.

607. MUIRKIRK. — Of the parents of the 4 children entered as removed from the district those of two of the children were Germans who returned to their own country.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
14	Deerness	Part of St Andrews.
15	Eday and Pharay	Part of Stronsay and Eday.
22	North Ronaldshay	Part of Cross and Burness.
26	Sanday	Lady, and part of Cross and Burness.
37*b*	Keiss	Parts of Canisbay and Wick.
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59*b*	Carnoch	Parts of Contin and Urray.
86*b*	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs and part of Uig.
92*b*	Cannich	Parts of Kilmorack and Kiltarlity & Convinth.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
135	Elgin	Elgin, and parts of New Spynie, and St Andrews-Lhanbryde.
152	Enzie	Parts of Bellie and Rathven.
155*b*	Glenrinnes	Parts of Aberlour and Mortlach.
167	Seafield	Parts of Cullen and Rathven.
171*b*	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210*b*	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone and part of Glenmuick, Tullich and Glengairn,
222*b*	Millbrex	Parts of Fyvie and Monquhitter.
227*b*	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
237*b*	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249*b*	Ythan Wells	Parts of Auchterless and Forgue.
272	Arbroath	Arbroath, and part of St Vigeans.
282	Dundee	Dundee, and part of Liff, Benvie and Invergowrie.
294*b*	Kilry	Parts of Glenisla and Lintrathen.
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
328*b*	Ardoch	Parts of Blackford, Dunblane, and Muthill.
330	Auchtergaven	Parts of Auchtergaven and Monzie.
331	Balquhidder	Balquhidder, and part of Comrie.
344	Dowally	Part of Dunkeld & Dowally.
349	Dunkeld	Part of Dunkeld & Dowally.
355*b*	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Little Dunkeld, Methven, and Monzie.
379	Meigle	Meigle and part of Coupar-Angus.
386*b*	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and parts of Kinnoull and Scone.
393*b*	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394*b*	Strathfillan	Part of Killin.
394*c*	Tenandry	Parts of Blair-Athol and Moulin.
402	Anstruther-Easter	Anstruther-Easter and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino and part of Crail.
442	Kirkcaldy and Abbotshall	Kirkcaldy, Abbotshall, and part of Kinghorn.
481*b*	Grangemouth	Parts of Bothkennar, Falkirk, and Polmont.
490	Stirling	Stirling, and part of St Ninians.
496	Dumbarton	Dumbarton and part of Cardross.
506	Ballachulish, etc.	Part of Kilmallie.
509	Cumlodden and Minard	Parts of Glassary and Glenaray.
513	Inveraray	Inveraray and part of Glenaray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
525	Lismore	Lismore and Appin, and part of Kilmallie.
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardchattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelvie	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
556	Lochranza	Parts of Kilbride and Kilmory.
557	North Bute	North Bute, and part of Rothesay.
572	Neilston	(1) Part of Neilston; (2) Remainder of Neilston, and part of Abbey.
573	Paisley	Paisley, and parts of Abbey and Renfrew.
574	Port-Glasgow	Port-Glasgow and part of Greenock.
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
578	Ayr	Ayr, Newton-upon-Ayr, and part of St Quivox.
584*b*	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine	Irvine, and part of Dundonald.
610*b*	Patna	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton.
626*b*	Calderhead	Parts of Cambusnethan and Shotts.
639	Dalziel	Dalziel and part of Hamilton.
644	Glasgow	City of Glasgow, Gorbals and parts of Barony, and Govan.
652	Old Monkland	Old Monkland, and part of New Monkland.
670	Queensferry	Queensferry, and part of Dalmeny.
684	Duddingston	Parts of Duddingston and South Leith.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
685	Edinburgh	City of Edinburgh, Canongate, and parts of St Cuthberts, Duddingston, Liberton, North Leith and South Leith.
692	Leith	(1) Parts of Cramond, North Leith, and St Cuthberts; (2) Parts of North Leith, St Cuthberts, and South Leith.
693	Liberton	Parts of Liberton and Inveresk.
698*b*	Stobhill	Parts of Borthwick, Cockpen, and Newbattle.
774*a*	Caddonfoot	Parts of Galashiels, Innerleithen, Selkirk, Stow, and Yarrow.
787*b*	Edgerston	Parts of Jedburgh, and Southdean.
794	Kirktown	Kirktown and part of Cavers.
809	Teviothead	Parts of Cavers and Hawick.
813*b*	Brydekirk	Parts of Annan, Cummertrees, and Hoddom.
830	Holywood	Holywood and part of Terregles.
853*b*	Wanlockhead	Part of Sanquhar.
857*b*	Bargrennan	Parts of Minnigaff (Kirkcudbright) and Penninghame (Wigtown).
862	Corsockbridge	Parts of Balmaclellan, Kirkpatrick-Durham, and Parton.
864	Dalbeattie	Part of Urr.
899	Stranraer	Stranraer and parts of Inch, and Leswalt.

LIST of REGISTRATION DISTRICTS which include BURGHS, or TOWNS of 2000 Inhabitants and upwards, *or parts thereof*, bearing a different name from the District in which they are situated.

No.	Registration Districts.	Burghs.	Towns.

* The actual number of Districts is 1056—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 5 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced.

REPORT TO THE REGISTRAR-GENERAL,

BY R. J. BLAIR-CUNYNGHAME, M.D., F.R.S.E.

SIR,

I have now the honour to present a report with tables relative to the Births, Deaths, and Marriages registered throughout Scotland during the ten years 1881–1890.

The population of Scotland upon the census day, April 4th 1881, was 3,735,573, and upon April 5th 1891 it was 4,025,647, giving a decennial increase of 290,074 souls, and at the rate of 7·77 per cent. The births registered during the ten years 1881–1890 number 1,251,930, and the deaths 743,582, giving an increase of the former over the latter of 508,348. The number of emigrants presumed to have left Scotland during the same decade, as given by the Board of Trade Reports, is 278,677, while of the immigrants we have no information.

Scotland is divided for statistical purposes into five primary registration districts, viz., Principal Town Districts, Large Town Districts, Small Town Districts, Mainland-Rural Districts, and Insular-Rural Districts.*

The Principal Town Districts had an enumerated population at 1881 census of 1,409,260, and at 1891 of 1,590,310, showing an increase of 181,050. The inhabitants of the Large Town Districts were at the same periods 404,302 and 467,872, an increase of 63,570. Those in the Small Town Districts were 784,654 and 840,339 respectively, an increase of 55,685. Those in the Mainland-Rural Districts were 1,006,969 and 1,001,174, indicating a decrease at the 1891 census of 5795; and the inhabitants of the Insular-Rural Districts were, at 1881 census, 130,388, and at the latter 125,952, a decrease of 4436. When considered as Urban and Rural collectively there is a total increase in the population of the former during the decade of 300,305, and a decrease of the latter of 10,231.

The Counties of Scotland are grouped together into eight divisions —the Northern, consisting of Shetland, Orkney, Caithness, and Sutherland, with combined populations at the two censuses 1881 and 1891 of 123,984 and 118,237; the North-Western, including Ross and Cromarty, and Inverness, with populations of 165,856 and 163,836; the North-Eastern, comprising Nairn, Elgin or Moray, Banff, Aberdeen, and Kincardine, with populations of 418,250 and 433,580; the East-Midland, being Forfar, Perth, Fife, Kinross, and Clackmannan, with populations of 602,421 and 629 035; the West-Midland, including Stirling, Dumbarton, Argyll, and Bute, with populations of 283,460 and 314,840; the South-Western, comprising Renfrew, Ayr, and Lanark, with populations of 1,385,447 and 1,563,253;

* Principal Towns are towns with populations above 25,000. Large Towns are towns with populations above 10,000 and under 25,000. Small Towns are towns with populations from 2000 to 10,000. Insular-Rural includes the populations of al the islands, with the exception of the towns of Lerwick, Kirkwall, Stornoway, and Rothesay, which are included in the Small Towns. Mainland-Rural includes the population not otherwise accounted for above.

the South-Eastern, made up of Linlithgow, Edinburgh, Haddington, Berwick, Peebles, and Selkirk, with populations of 546,658 and 599,620; and, lastly, the Southern, viz., Roxburgh, Dumfries, Kirkcudbright, and Wigtown, with a population at 1881 of 209,497, and at 1891 of 203,246.

Table I. gives a general annual summary of the number of births, deaths, and marriages registered in Scotland since the commencement of the Scottish Registration Act, with the population, as estimated, for each year, and the number of the inhabitants as enumerated at each of the censuses 1861, 1871, 1881, and 1891.

Table II. is drawn up to afford information regarding the area of Scotland, its divisions and counties in acres and square miles, and the density of the population in each. For Scotland, with a mean intercensual population of 3,880,610, it is here seen there were 135 persons to

---

TABLE I.—Population estimated to the middle of each year, together with the Census Populations of 1861, 1871, 1881, and 1891; with the Number of Births, Deaths, and Marriages registered in Scotland during each of the Years 1855 to 1891, and their Proportion to the Population; also the Excess of Births over Deaths, the Illegitimate Births, and their Proportion to the Total Births.

YEARS	Estimated Population.	BIRTHS.		Deaths.	Marriages.	Excess of Births over Deaths.	Percentage to Population.			Percent. of Illegit. to Total Births.
		Total.	Illegit.				Births.	Deaths.	Marriages.	
1855	2,978,065	93,349	7,357	62,004	19,680	31,345	3·1491	2·0820	0·6608	7·8
1856	2,995,771	101,821	8,695	58,529	20,740	43,292	3·3988	1·9537	0·6923	8·5

Table III. gives the age distribution of the population in Scotland and in each county at a series of ages; thus, in every 1000 persons in Scotland, 125 under 5 years of age were alive at the time of the last census; 119 were between 5–10 years; 113 were between 10–15 years; 104 were between 15–20 years; 91 were between 20–25 years; 145 were between 25–35 years; 108 were between 35–45 years; 86 were between 45–55 years; 59 were between 55–65 years; 35 were between 65–75 years; and 15 were living at ages over 75 years. The ratios vary considerably in the different counties, *e.g.*, the smallest proportion of young children being in Sutherland, 99 per 1000; Shetland, 100; and Orkney, 103; the largest in Ayr, 134; Lanark, 135; and Linlithgow, 153.

Table IV. gives the total number of births, deaths, and marriages which were registered in Scotland, its districts, divisions, and counties, during the ten years 1881–1890, with the proportions of the same to the mean population for that period, the birth-rate being 3·2261 per cent., the death-rate 1·19161 per cent., and the marriage-rate 0·6684 per cent., while in every 100 births 8·16 were illegitimate.

TABLE III.—Proportion per Thousand of the Population of Scotland and of each County, at different Ages, as at Census 1891.

BIRTHS.

The total births registered throughout Scotland during the decennial period is 1,251,930, and as before-mentioned, in the ratio of 3·2261 in every 100 of the mean populations of 1881 and 1891. When the county is divided into five Great Registration Districts, the rate varies considerably in each; thus, in the Principal Town Districts, with a total of 517,454 births, the rate is 3·4501 per cent. of the population of the same; in the Large Town

---

TABLE IV.—Number of Births, Deaths, and Marriages registered during the Years 1881-1890, and their Proportion to the Mean Population, 1881-1891, in Scotland, its Groups of Districts, its Divisions and Counties; also the Number of Illegitimate Births, and their Proportion to the Total Births.

Districts, with a total of 146,367, the rate is 3·3514 per cent. of population; in the Small Town Districts, with a total of 266,277, the rate is 3·2773 per cent.; in the Mainland-Rural Districts, with a total of 290,484, the rate is 2·8930 per cent.; and in the Insular-Rural Districts, with a total of 31,348 births, the rate is 2·4458 per cent. of the population of the same. Grouping these districts into Urban and Rural, the birth-rate in the former is 3·38 per cent. of the population of the same; in the latter it is 2·84 per cent.

In but six counties is the birth-rate higher than that for all Scotland, viz., in Dumbarton, 3·30 per cent.; in Ayr, 3·41 per cent.; in Renfrew, 3·46 per cent.; in Stirling, 3·36 per cent.; in Lanark, 3·69 per cent.; and in Linlithgow, 4·01 per cent. The counties which show the lowest mean birth-rate for the decade are, Sutherland with one of 2·30 per cent., and Shetland with one of 2·29 per cent.

The greatest number of births registered throughout Scotland during any one of the ten years is in 1884, viz., 129,157, and equal to 3·3745 per cent. of the population as estimated for that year; the smallest number is during 1890, viz., 121,526, equal to 3·0358 per cent. of the estimated population.

The illegitimate births registered during the ten years number 102,128, and equal to 8·16 per cent. of the total births. In the five Registration Districts they are as follows:—39,414 in the Principal Town Districts, equal to 7·61 per cent. of the births registered therein; in the Large Town Districts they number 9844, equal to 6·73 per cent.; in the Small Town Districts they are 20,969, or 7·88 per cent.; in the Mainland-Rural Districts they are 30,012, or 10·33 per cent.; and in the Insular-Rural Districts 1889, or 6·02 per cent. of all. Those counties in which they bulk most largely are Dumfries, in which 14·32 per cent. of all the births are of this nature; Kirkcudbright, with 14·57 per cent.; Elgin, with 14·80 per cent.; Banff, with 15·23 per cent.; and Wigtown, with 16·51 per cent. They are lowest in Renfrew, with 5·59 per cent.; Dumbarton, with 5·12 per cent.; Ross and Cromarty, with 4·92 per cent.; and Shetland, with 4·72 per cent.

MARRIAGES.

259,388 marriages were registered throughout Scotland during the ten years 1881–1890, being at the rate of 66·84 in every ten thousand of the mean population. The number of marriages in the Principal Town Districts is 123,557, the rate being 82·42 per ten thousand; in the Large Town Districts they number 29,674, with a rate of 67·94 per ten thousand; in the Small Town Districts they total to 50,159, at the rate of 61·73 per ten thousand; and in the Insular-Rural Districts they are 4907, the rate here being 38·28 per ten thousand of the mean intercensual population of the same. Grouping these districts into Urban and Rural, the marriage-rate in the former is 74 per ten thousand, and in the latter 49 in like proportion.

The marriage-rate is higher than that for Scotland in six counties, viz., Forfar, Renfrew, Ayr, Lanark, Linlithgow, and Edinburgh, being below in all the others. The highest rate occurs in Renfrew, 73·11 per ten thousand, Edinburgh 77·55, and Lanark 80·29; the lowest rate being in Argyll, where

38·86, and in Sutherland, where 31·91, marriages per ten thousand of the respective mean population were registered.

The largest number of marriages registered in Scotland during any one of the ten years under review was, in 1890, viz., 27,469, and at the rate of 69 in every ten thousand of the population as estimated for that year; the smallest number during 1886, viz., 24,515, and forming 63 per ten thousand of population.

Table V. indicates how the celebrations were performed by clergy of the various leading denominations in Scotland and in each county. Thus, of the total 259,388 marriages, 119,708, or 46·15 per cent. of all, fall to the Established Church of Scotland; 52,768, or 20·34 per cent., to the Free Church; 30,110, or 11·61 per cent., to the United Presbyterian Church; 25,580, or 9·86 per cent., to the Roman Catholic Church; 7324, or 2·82 per cent., to the Episcopal Church; 17,279, or 6·66 per cent., come under some other denomination than the above. In 121 cases no designation of a church was given, and in 6498 cases the marriages were irregular in their nature. From the table information may readily be obtained how the number and proportion of the marriages in accordance with those denominations differ in the various counties of Scotland.

Table VI. gives the number of marriages entered into at a series of ages by both bridegrooms and brides during each of the ten years, while Table VII. gives for the decade the numbers and proportions married at each

TABLE VI.—Number of Marriages in Scotland at each Quinquennial Period during each of the Years 1881–1890.

age. From the latter table it is seen that 2·81 per cent. of the husbands entered into matrimony before attaining the age of 20 years, 12·52 per cent. of the wives doing the same. Between 20–25 years is the age when the largest number of marriages are entered into; 36·98 per cent. of the men, and 45·72 per cent. of the women, being of this age. During the next quinquennium, 25–30 years, the ratios are 32·05 per cent. and 24·59 per cent. respectively; between 30–35 years they have fallen to 13·04 per cent. and 8·42 per cent.; between 35–40 years they are 6·37 per cent. and 4·24 per cent.; between 40–45 years they are 3·58 per cent. and 2·33 per cent.; between 45–50 years they are 2·22 per cent. and 1·27 per cent. while 2·94 per cent. of the husbands, and 0·89 per cent. of the wives, had attained a greater age than 50 years at marriage.

Table VIII. affords some clue as to the educational condition of the adult population in Scotland, its districts, divisions, and counties, inasmuch as there is here given, for each of the ten years 1881–1890, as also for the decade collectively, the proportion of the husbands and wives who adhibited their "mark" on the marriage register in place of writing their names, and which table affords undoubted evidence of a considerable improvement in this respect. Thus, in Scotland, in 1881, the first of the ten years, 7·06 per cent. of the men, and 13·93 per cent. of the women, married, signed by "mark" alone; while in 1890, the last of these years, 3·92 per cent. of the former, and 6·42 per cent. of the latter, were apparently unable to write their name. The Insular-Rural among the districts fail most in this way; and in two counties, Ross and Cromarty and Inverness, the ratio of males who used "mark" is over 10 per cent., and in nine more it is over 5 per cent.; among the females the ratio in ten of the counties is above 10 per cent., the percentage in the two above-mentioned being 44·66 and 26·69 respectively.

DEATHS.

The total deaths registered throughout Scotland during the ten years 1881–1890 number 743,582, affording a death-rate of 19·161 per 1000 of the intercensual population. (Table IX.)

TABLE VII.—Total Number and Proportion of Men and Women in Scotland at each Quinquennial Period of Age who contracted Marriage during the Ten Years 1881–1890.

Ages.	Men.		Women.	
	Number who Married at each Age.	Percentage at each Age to Total Marriages.	Number who Married at each Age.	Percentage at each Age to Total Marriages.

1000 respectively.. In round numbers, 4600 more per 1,000,000 die yearly in Urban than in Rural Districts. There are five counties in which the death-rate is above that for Scotland, viz., Forfar, with a rate of 19·300 per 1000; Edinburgh, with one of 19·531; Bute, with one of 20·437; Renfrew, with one of 21·214; and Lanark, with one of 22·123 per 1000. Those counties showing the lowest mean death-rate for the ten years are Haddington, with one of 15·995 per 1000; Ross and Cromarty, with one of 15·740; Selkirk, with one of 15·694; Berwick, with one of 15·625; Kincardine, with one of 14·987; and Peebles, with one of 14·028 per 1000.

This same Table IX., which gives similar information as to the sexes separately as for them combined, shows how in six counties, viz., Orkney, Caithness, Linlithgow, Peebles, Kirkcudbright, and Wigtown, the female death-rate is higher than the male.

The largest number of deaths registered during any one of the ten years was, in 1890, viz., 79,004, giving a rate for that year of 19·736 per 1000 of the population as estimated; the smallest number during 1888, viz., 71,174, at the rate of 18·048 per 1000.

Table X. gives the total number of deaths during the decade in each of the five great registration districts in Scotland, as also in those portions of

Shetland, in which the population is contained in either Small Town or Insular-Rural Districts, the male death-rate is, in the former, 17,052 per 1,000,000 of the inhabitants of the same, and in the latter 17,473; the rate for the same sex in the county, as a whole, is 17,403 per 1,000,000. In Sutherland, which is all Mainland-Rural, the male death-rate is 16,464 per 1,000,000. In Aberdeen, the inhabitants of which are distributed in Principal Town Districts, Large Town Districts, Small Town Districts, and Mainland-Rural Districts, the male mortality rates corresponding thereto are 20,880, 18,756, 18,588, and 13,843 per 1,000,000 of the inhabitants of the same sex in each; the total male rate for the county, as a whole, is 17,255, &c.

Tables XII. and XIII. give the deaths, male and female, as registered at different ages in Scotland, its five great Registration Districts, and each County during the decade. Here we find that in Scotland 83,121 male infants under one year of age died during the ten years, equal to 22·5 per cent. of the deaths at all ages; the corresponding number and ratio among the females being 65,916, or 17·6 per cent. At ages under five years the number of male children succumbing was 139,671, or 37·9 per cent. of the whole mortality; that of female 119,632, or 31·9 per cent. The proportion of deaths at these ages to the number alive at the same ages in Scotland are—males, 15·1 per cent. and 5·4 per cent.; females, 12·3 per cent. and 4·8 per cent.

In the Counties the mortality rate at ages under five years, and for the sexes combined, to the population alive at the same age, is 2·4 per cent. in Shetland; in Orkney it is 1·7 per cent.; in Caithness it is 3·2 per cent.; in Sutherland it is 2·5 per cent.; in Ross and Cromarty it is 2·9 per cent.; in Inverness it is 3·2 per cent.; in Nairn it is 3·3 per cent.; in Elgin it is 3·7 per cent.; in Banff it is 3·6 per cent.; in Aberdeen it is 4·0 per cent.; in Kincardine it is 3·0 per cent.; in Forfar it is 5·4 per cent.; in Perth it is 3·5 per cent.; in Fife it is 4·1 per cent.; in Kinross it is 3·0 per cent.; in Clackmannan it is 3·9 per cent.; in Stirling it is 4·6 per cent.; in Dumbarton it is 4·9 per cent.; in Argyll it is 2·9 per cent.; in Bute it is 4·1 per cent.; in Renfrew it is 6·3 per cent.; in Ayr it is 4·5 per cent.; in Lanark it is 6·8 per cent.; in Linlithgow it is 5·2 per cent.; in Edinburgh it is 5·6 per cent.; in Haddington it is 3·4 per cent.; in Berwick it is 2·9 per cent.; in Peebles it is 3·0 per cent.; in Selkirk it is 4·1 per cent.; in Roxburgh it is 4·1 per cent.; in Dumfries it is 4·0 per cent.; in Kirkcudbright it is 3·6 per cent.; and in Wigtown it is 3·3 per cent.

CAUSES OF DEATH.

Certain of the more frequent, and therefore perhaps important, causes of death have been selected in order that more particular notice might be taken of them than could be for the whole. Tables XIV. and XV., which show the number of deaths, male and female, in each class and order of disease in Scotland, and in every County, indicate how the total Zymotic deaths in Scotland during the ten years are 47,193 males and 51,649 females, together giving a mortality rate of 2547 per million of the mean population; and throughout the tables it may be readily seen how these deaths are distributed in the various Counties. The Zymotic death-rate for the sexes combined is, in the Principal Town Districts, equal to 3368 per

Of the Zymotics, Small-pox (Table XVI., and also Appendix Table, p. lxii.) caused 138 deaths throughout Scotland during the decade, affording a death-rate of 4 per million of the inhabitants. Measles caused 14,938 deaths, or 385 per million in Scotland, the corresponding rate for this disease in the Prin

Disease in Scotland, and in each County, during the Ten Years 1881–90.—MALES.

in the Principal Town Districts; 610 in the Large Town Districts; 481 in the Small Town Districts; 291 in the Mainland-Rural Districts; and 270 in the Insular-Rural Districts. Diphtheria caused 8288 deaths, or the rate of 214 per million of the inhabitants of Scotland. In the Districts the rates are 261 in the Principal Town Districts; 196 in the Large Town Districts; 200 in the Small Town Districts; 181 in the Mainland-Rural Districts; and 56 in the Insular-Rural Districts. Typhus-Fever caused 1264 deaths, or 33 per million of population, the corresponding ratios in the Districts being 57 in the Principal Town Districts; 19 in the Large Town Districts; 19 in the Small Town Districts; 10 in the Mainland-Rural Districts; and 55 in the Insular-Rural Districts. Typhoid Fever caused 8972 deaths, at the rate of 231 per million, the similarly proportionate rates being 215 in the Principal Town Districts; 243 in the Large Town Districts; 295 in the Small Town Districts; 213 in the Mainland-Rural Districts; and 119 in the Insular-Rural Districts. Diarrhœa and Dysentery together caused 17,592 deaths in Scotland, at the rate of 453 per million, the rate in the Districts, being 577 per million in the Principal Town Districts; 515 in the Large Town Districts; 467 in the Small Town Districts; 273 in the Mainland-Rural Districts; and 125 in the Insular-Rural Districts. Puerperal Fever caused 3030 deaths, in the ratio of 151 per

million of the total mean female population, or 336 in like proportion of those between 15–45 years of age only.

Among local causes Diseases of the Nervous System caused the death of 43,995 males and 42,356 females in Scotland, together affording a death-rate of 2225 per million. The corresponding rate in the Principal Town Districts is 2568; in the Large Town Districts 2365; in the Small Town Districts 2203; in the Mainland-Rural Districts 1829; and in the Insular-Rural Districts 1057.

Diseases of the Circulatory System account for the deaths of 27,935 males and 30,336 females, together forming a death-rate of 1502 per million. The rate in the five Districts from the same is 1562 in the Principal Town Districts; 1444 in the Large Town Districts; 1571 in the Small Town Districts; 1461 in the Mainland-Rural Districts; and 877 in the Insular-Rural Districts.

Diseases of the Respiratory System caused the death of 74,693 males and 69,674 females, together equivalent to 3720 per million. The corresponding rates in the five great Districts are 4783 in the Principal Town Districts; 3679 in the Large Town Districts; 3328 in the Small Town Districts; 2659 in the Mainland-Rural Districts; and 2226 in the Insular-Rural Districts. Bronchitis accounts for 77,129 deaths, or a rate of 1988 per million of the population of Scotland. In the Districts the rate varies, being 2568 in the Principal Town Districts; 2043 in the Large Town Districts; 1771 in the Small Town Districts; 1392 in the Mainland-Rural Districts; and 1044 in the Insular-Rural Districts. Pneumonia caused 41,722 deaths throughout the country, equal to 1075 per million, the corresponding rate being 1510 in the Principal Town Districts; 966 in the Large Town Districts; 872 in the Small Town Districts; 721 in the Mainland-Rural Districts; and 424 in the Insular-Rural Districts.

Diseases of the Digestive System caused the death of 25,784 males and 26,202 females, together equal to 1340 per million. In the Principal Town Districts the rate is 1450; in the Large Town Districts it is 1365; in the Small Town Districts it is 1370; in the Mainland-Rural Districts it is 1193; and in the Insular-Rural Districts it is 917.

Diseases of the Liver caused 9972 deaths, equal to 257 per million population of Scotland, the rate in the Principal Town Districts being 265; in the Large Town Districts 261; in the Small Town Districts 273; in the Mainland-Rural Districts 237; and in the Insular-Rural Districts 206.

Diseases of a Constitutional nature caused the death of 62,794 males and 73,601 females, together giving a mortality rate of 3514 per million. Cancer is the cause of 22,497 deaths,—males 8269, females 14,228,—and equivalent to a rate of 580 per million, which, in the Principal Town Districts, is 595; in the Large Town Districts 536; in the Small Town Districts 580; in the Mainland-Rural Districts 601; and in the Insular-Rural Districts 388. Tubercular Meningitis caused 13,176 deaths, equal to 340 per million, the rates in the Districts being 426 in the Principal Town Districts; 378 in the Large Town Districts; 348 in the Small Town Districts; 219 in the Mainland-Rural Districts; and 87 in the Insular-Rural Districts. Phthisis accounts for 77,168 exits, at the rate of 1989 per million, the corresponding rate in the Principal Town Districts being 2429; in the Large Town Districts 2040; in the Small Town Districts 1879; in the Mainland-Rural Districts 1459; and in the Insular-Rural Districts 1503.

Tables XVII. and XVIII. give the total numbers, male and female, succumbing to the above diseases in Scotland and in each County during the ten years; and Tables XIX. and XX. indicate the ages at which deaths in each class and order of disease occurred in Scotland, and require no explanation.

Table XXI. gives the mean annual death-rate per million of population (both sexes) living in Scotland from certain diseases as at three decennial periods,—1861–1870, 1871–1880, 1881–1890. The mean death-rate for Scotland during the first decade is 21,988 per million, during the second 21,533, and during the third 19,161. An increase in the death-rate is observable during the last decade from diseases affecting the Nervous, Circulatory, and Urinary Systems, as also is the case with that for Measles, Puerperal Fever, Pneumonia, and Cancer. Small-pox has almost vanished,

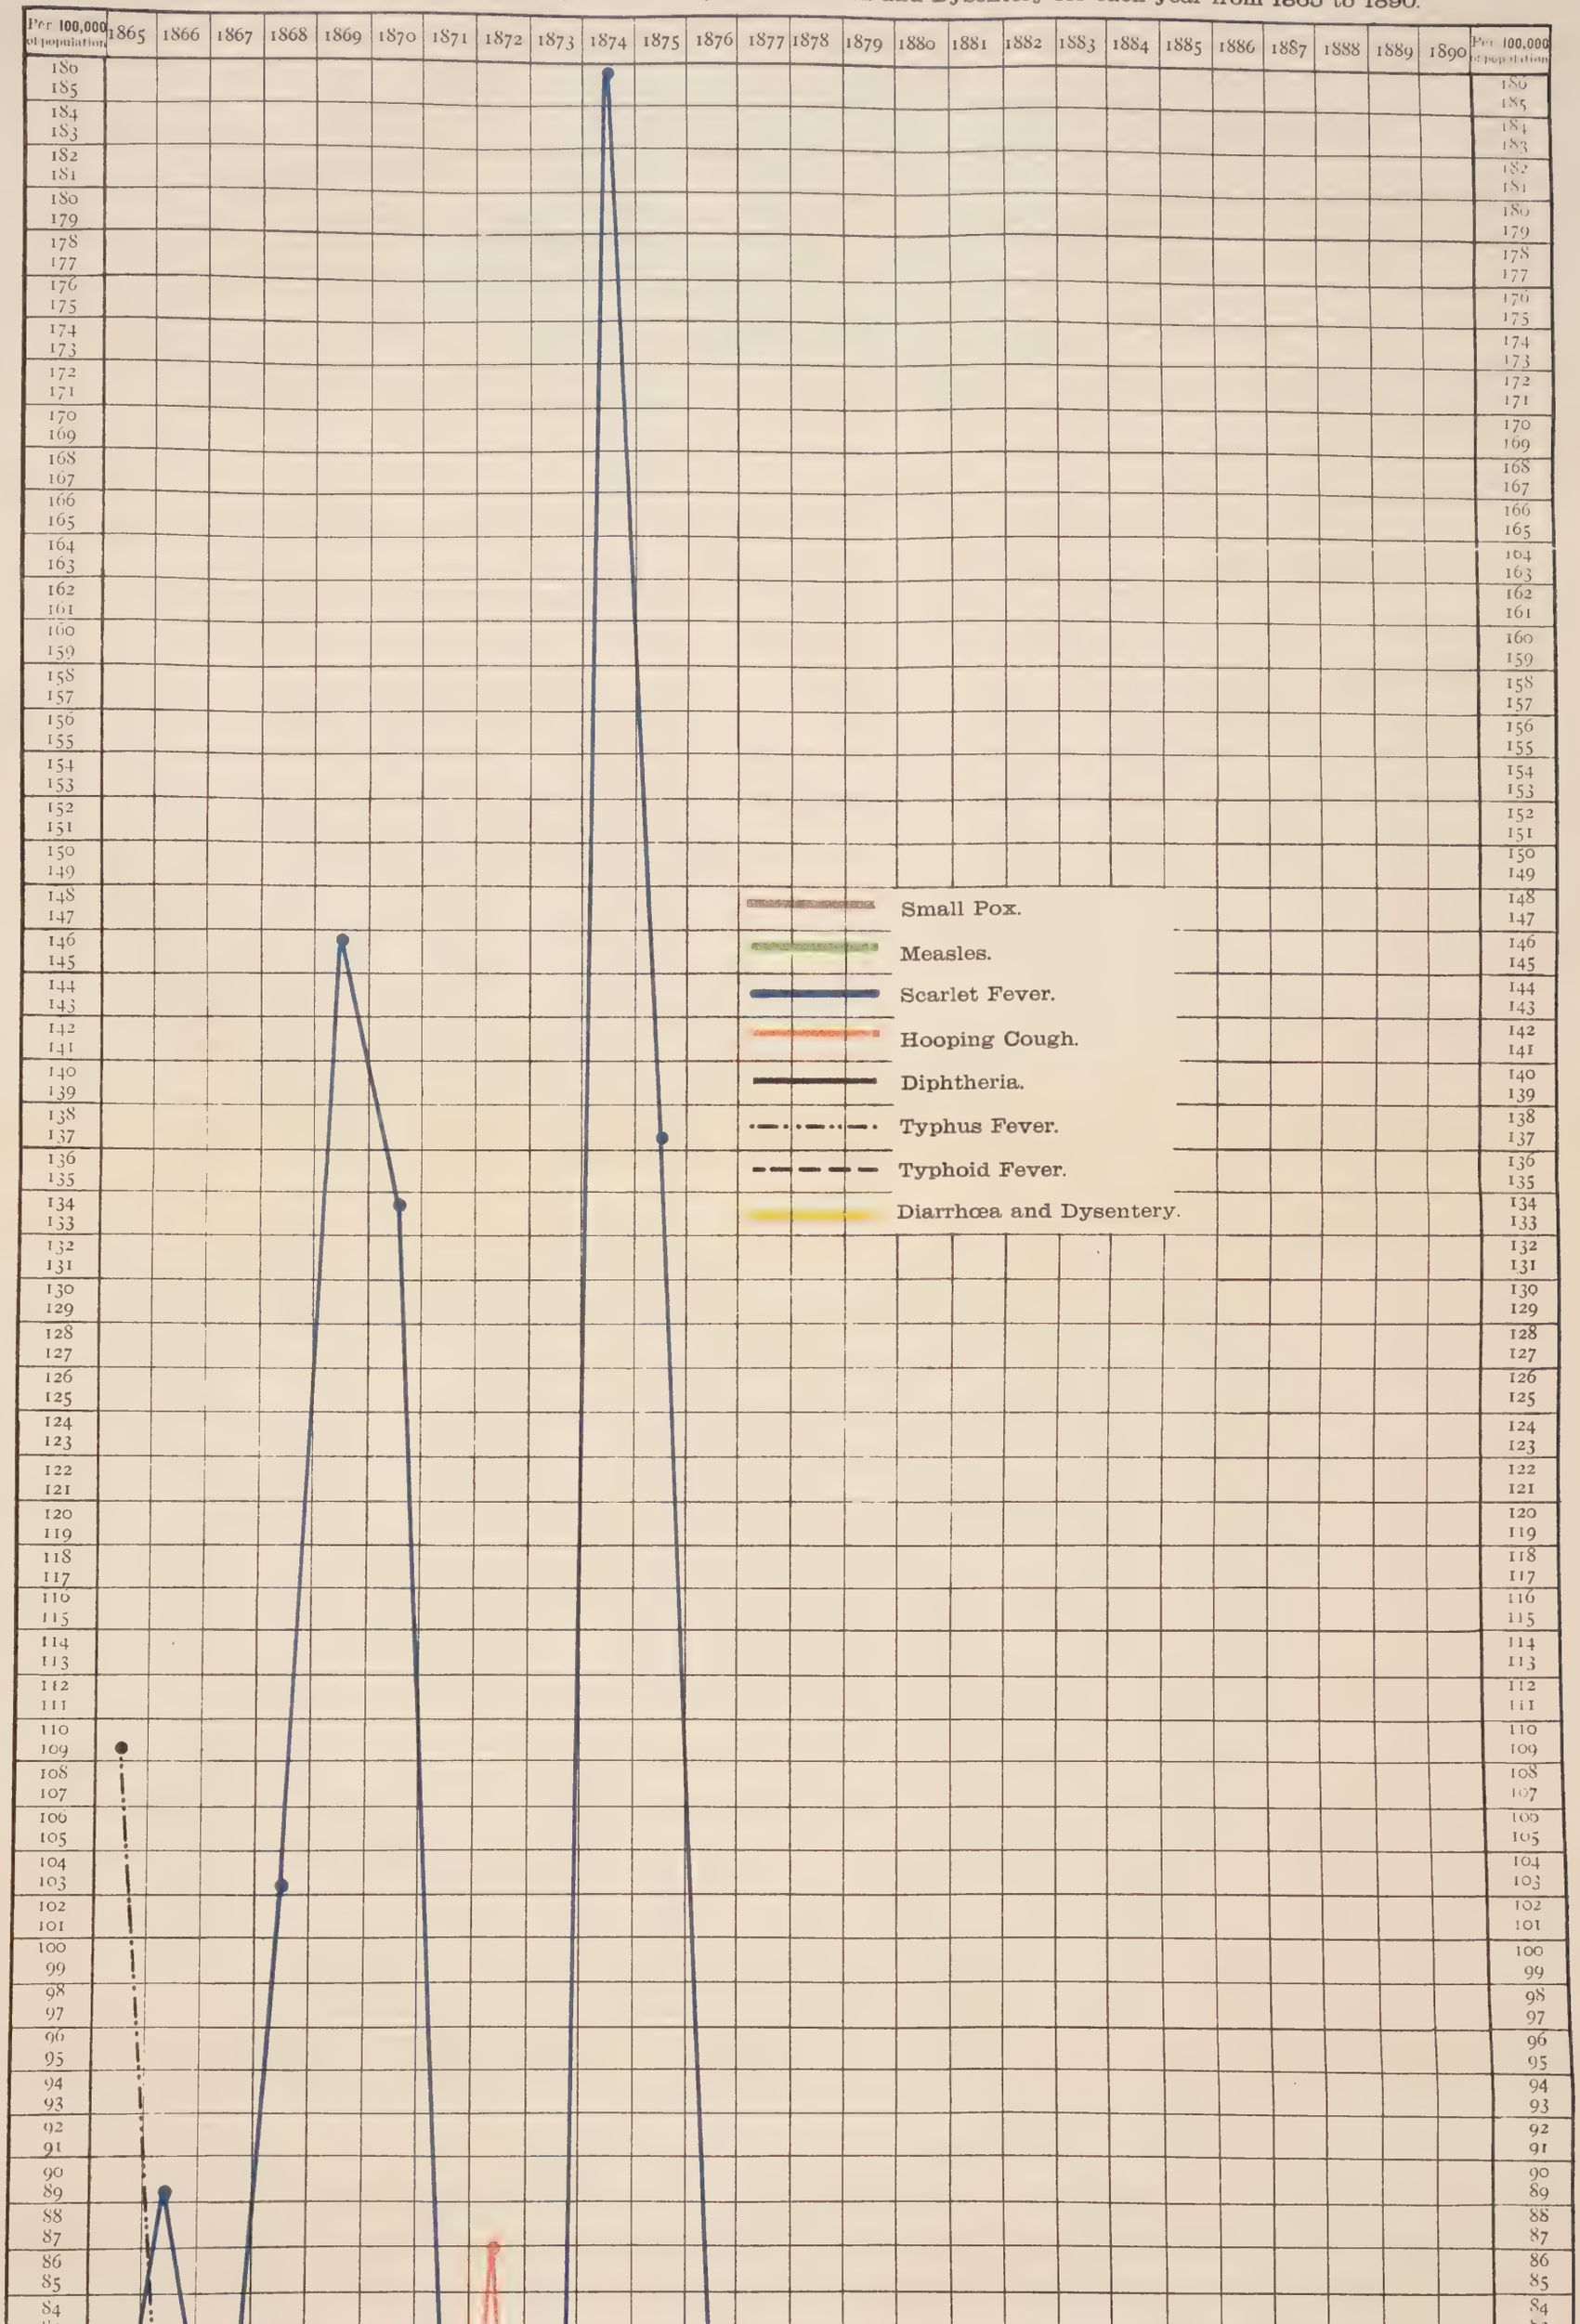
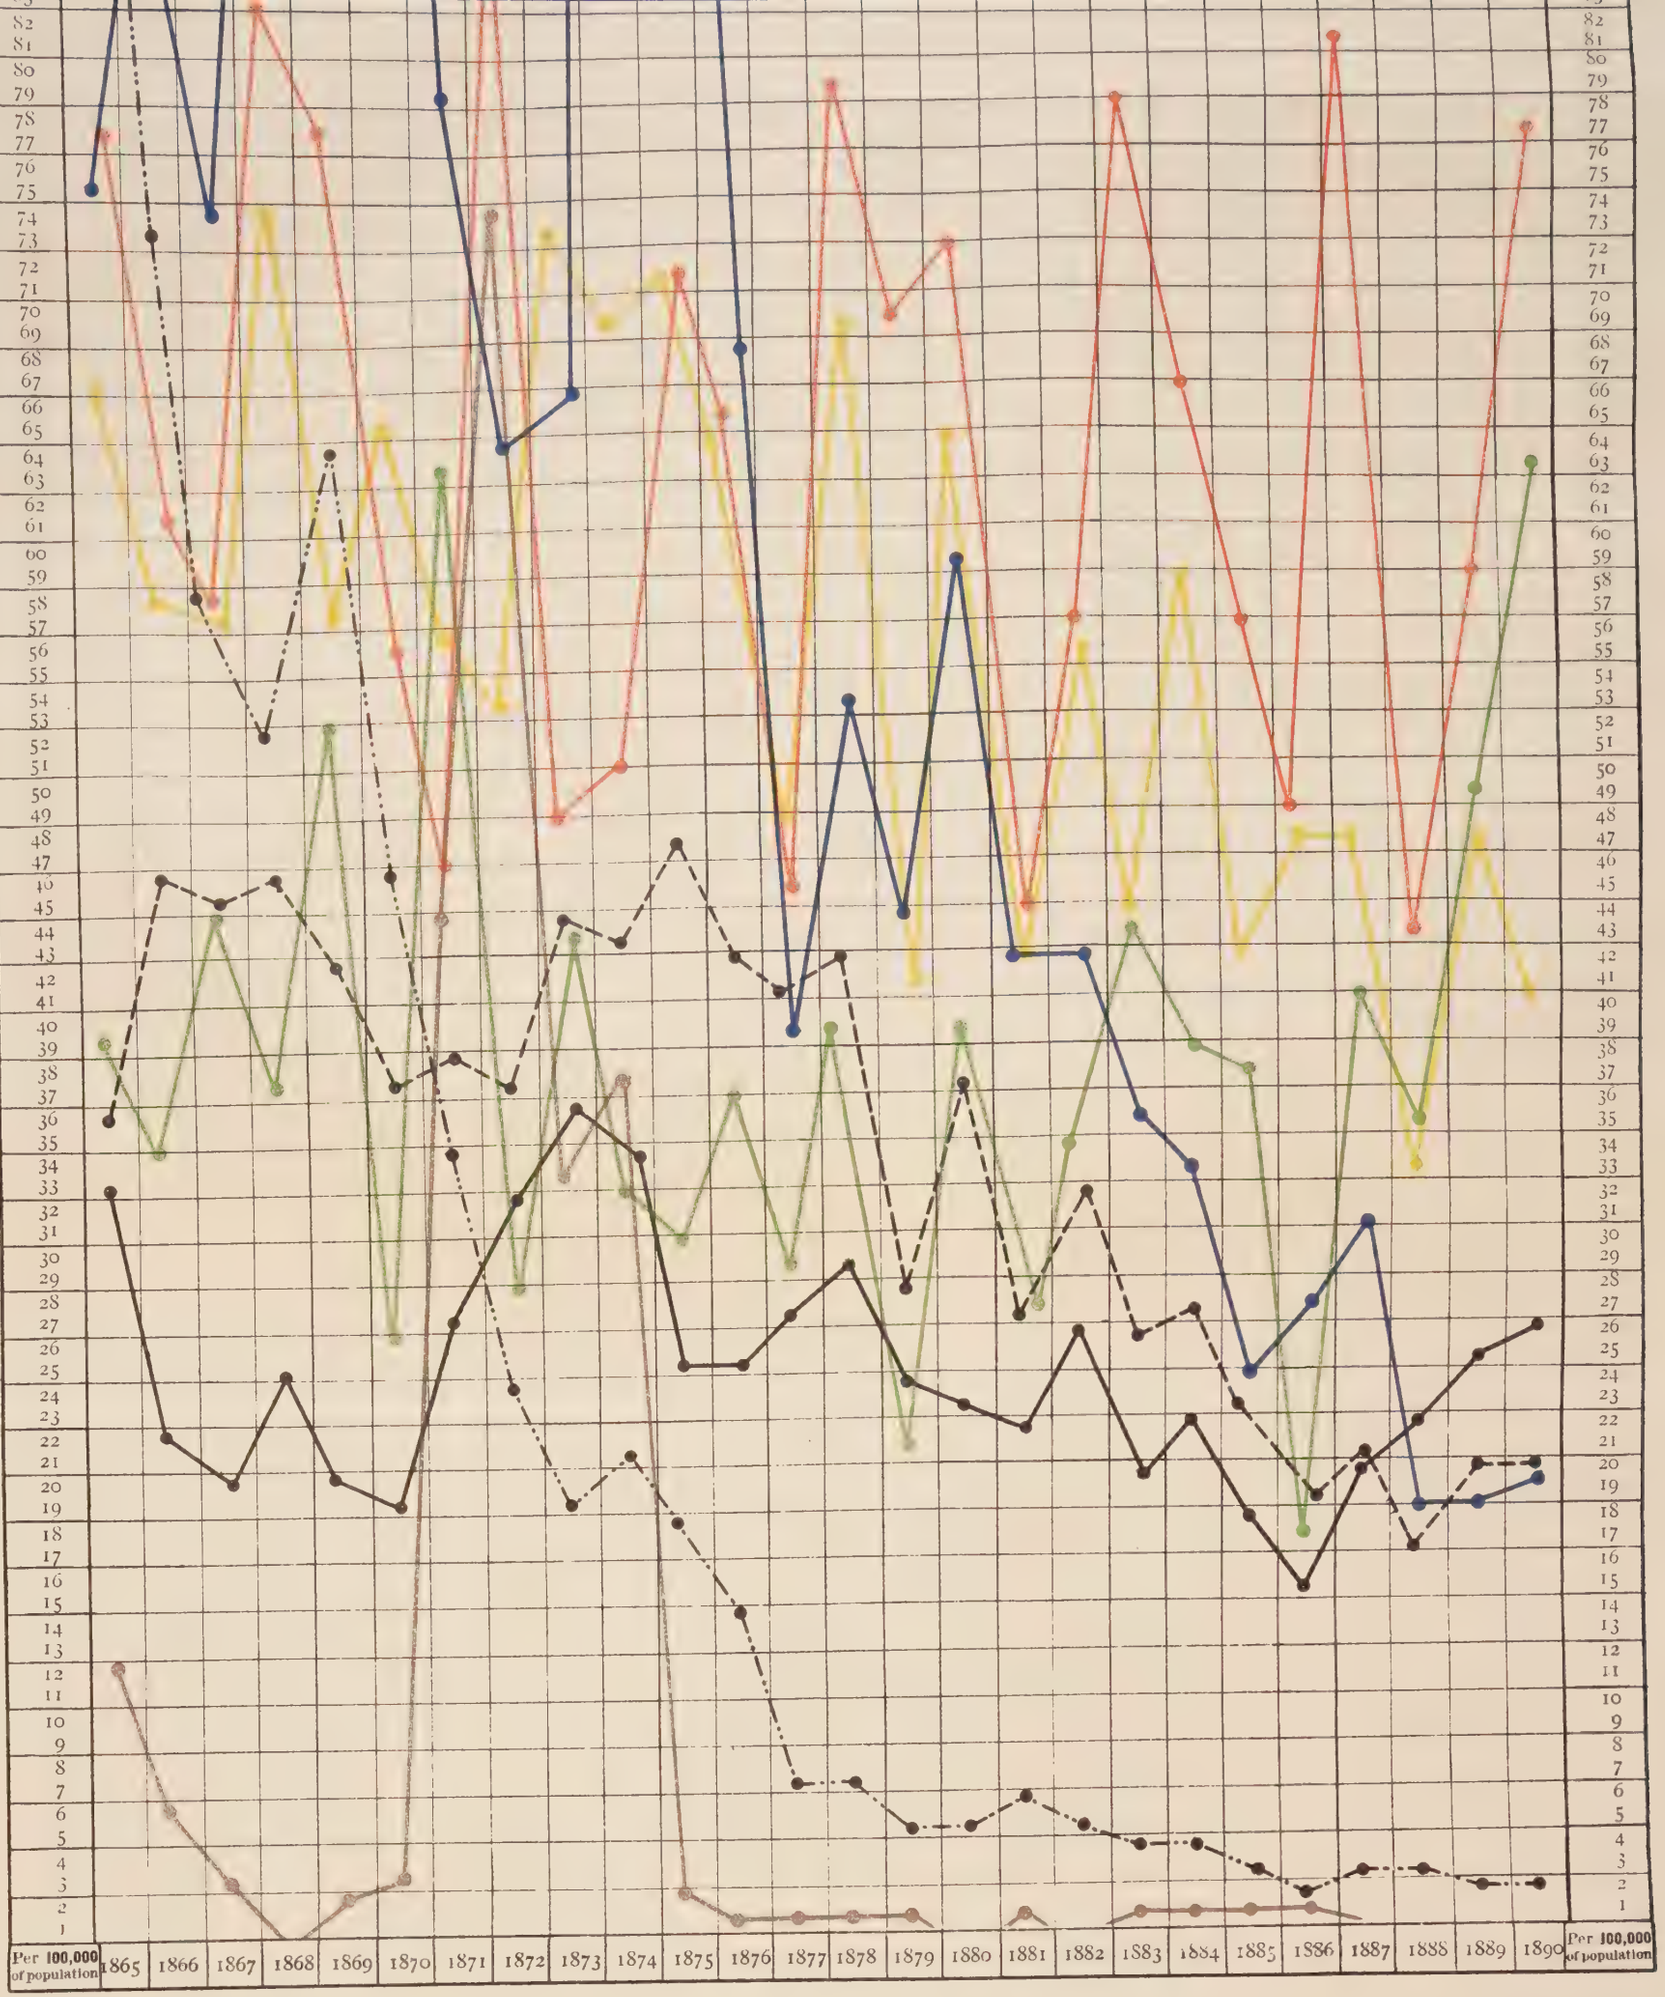
* Organs of Special Sense included in Brain Disease, &c., for Years 1881 and 1882.

Graphic Delineation of the Death Rate per 100,000 of Population in Scotland, from Small Pox, Measles, Scarlet Fever, Hooping Cough, Diphtheria, Typhus and Typhoid Fevers, and Diarrhœa and Dysentery for each year from 1865 to 1890.





Per 100,000 of population
1865 1866 1867 1868 1869 1870 1871 1872 1873 1874 1875 1876 1877 1878 1879 1880 1881 1882 1883 1884 1885 1886 1887 1888 1889 1890
Per 100,000 of population

and the ratios for Typhus and Scarlet-Fevers have fallen in a most marked manner; and those for Phthisis, Hydrocephalus, and Scrofula also indicate a steady decline.

A graphic chart accompanies this report, on which is shown, in curves, the annual rise and fall from each important Zymotic Disease since the year 1865, the year in which Typhus and Typhoid Fevers were separated from each other in the reports issued from this Office, and, when looked at along with Table XXI., explains to a great extent the variations in the proportions there noted during the decennia.

Although the complete occurrence of the late epidemic of Influenza is not included in the ten years now being dealt with (the years during which it affected the inhabitants of Scotland being 1890, 1891, and 92), still we think

of Ages, with the Mean Population and Mean Death-rate per 1000 Persons for Ten Years —Males.

it advisable to give a Table XXII., which shows the number of deaths, male and female, from this disease in Scotland in its primary great Registration Districts, and in each County as they were registered during each month of the above period of three years. The total number of deaths ascribed to Influenza in Scotland being 5238,—males 2458, females 2780. The Table speaks for itself, and requires no explanation. The death-rate from this disease for the mean of the three years is 42 per hundred thousand of the population, the male rate being 40 per hundred thousand, and the female rate 43.

Table XXIII. gives the deaths from Suicide of males and females, and the methods employed to accomplish this end in Scotland, its five great Registration Districts, and in each County during the decade. In Scotland 2146

* Organs of Special Sense included in Nervous System for Years 1881 and 1882.

individuals took their own lives during the ten years, 1495 of those being males and 651 females. As to the means employed, 123 males and 3 females shot themselves; 338 males and 84 females died by voluntarily cutting or stabbing themselves; 135 males and 98 females took poison; 347 males and 262 females drowned themselves; 443 males and 152 females hanged themselves; and 109 males and 52 females got rid of their lives by some other means. Table XXIV. deals with the same subject, but affords information as to the Suicides during each of the ten years. The smallest number of them, 167, occurring during 1882, the largest, 261, during 1886.

Table XXV. indicates the different poisons made use of by the Suicide during the ten years; they are arranged alphabetically, and for each sex.

Narcotics by a long way lead the list, as Opium and Morphia were taken by 73 males and 32 females (the total number who poisoned themselves being 135 males and 98 females); Carbolic Acid stands next, but far behind,—9 males and 7 females; Prussic Acid follows,—9 males and 2 females; Strychnia coming next,—4 of each sex; Arsenic follows,—4 males and 3 females making use of it; Oxalic Acid, 1 male and 8 females; and Salts of Sorrel, 7 females; the above being the poisons most frequently had recourse to by the suicide between 1881–90.

OCCUPATION OF MALES, AND THEIR MORTALITY.

The first thing which was done in considering this important question was to fix upon those occupations which, on account of the numbers employed therein at the last Census, or for other reasons, it was deemed advisable should be dealt with. To discover the causes of death every Death Register for Scotland for the three years, 1890, 1891, and 1892, was carefully and laboriously examined, and all the male deaths at ages above 15 years were extracted.

The number of males in Scotland above 15 years of age, as enumerated on the Census day, was 1,216,972, and the number of deaths of males above 15 years of age during the three years 1890, 1891, and 1892, all of which were in the first place extracted, was 68,534. From this number the deaths of those between 15 and 65 years of age, who had been employed in any of

---

the occupations selected, were abstracted,—44,779 in all—and full information obtained concerning them.

The number of occupations it is thought well to consider is 73, and, as just said, 44,779 deaths were recorded among those so engaged during the three years; and it is upon these data we found our estimates and conclusions.

On Appendix Table, at p. lxix, there is given the mean annual mortality during the three years at five age periods for males engaged in the selected occupations, those periods being 15 to 20 years, 20 to 25 years, 25 to 45 years, 45 to 65 years, and above this age. The line, "years of life," under each occupation in this table, is the number of males returned as employed in the occupation at the 1891 Census, multiplied by three. Table XXVI. is a condensation of the above, inasmuch as there is here given the mean annual death-rates per thousand living of males in each of the occupations, but between the ages 25 to 45 years, and 45 to 65 years only, those years when most men are undergoing the daily wear and tear which falls to every one who is working for a livelihood for himself and family, and who are therefore most liable to succumb to disease or accident incurred by Exposure, Neglect, Constitutional Weakness, Nervous Strain, Disability, &c. These tables are drawn up on the same lines as was done in the Supplement to the Forty-Fifth Annual Report of the Registrar-General for England, and we would explain Column 3, 'Comparative Mortality Figure,' in the same words as was done in that Report. There was during 1890, 1891, and 1892 an annual mortality in Scotland of 1000 deaths per 62,067 males between 25 and 65 years of age, and of such 62,067 males, 40,208 were under 45, and 21,859 were over 45 years of age. The figures in Column 3 are the number of deaths that would have occurred in the several occupations out of 62,067 males, of whom 40,208 were under and 21,859 were over 45 years of age. Thus, 40,208 Advocates, Writers to the Signet, and Solicitors at ages 25 to 45 years, and 21,859 at ages 45 to 65 years, would, with death-rates respectively of 7·50 and 27·43 per thousand, give 901 deaths, which figure is placed in Column 3 against the heading Advocate, &c., and represents the mean mortality of males in the legal profession between 25 and 65 years of age, as compared with the mortality of all males of similar ages in Scotland, the latter being taken as 1000. Table XXVII. gives the number of deaths, 25 to 65 years of age, in each selected occupation, and from certain diseases which are common causes of death; and Table XXVIII. gives the comparative mortality of males at like age from the same diseases; but, owing to the comparative small number of deaths in some of those occupations during the three years—each death was extracted—it is more than probable the comparative mortality figures are not what they would have been had a larger number of deaths been available for the calculations.

On casting a glance over Table XXVI., it is seen how, at the first age, 25 to 45 years, the mean mortality-rate per thousand living is, for Scotland, 9·98. In twenty-six of the occupations the rate is above this, the highest occurring under the heading of Dyer, Bleacher, Calenderer, 18·09; Hairdresser, 18·10; Inn, Hotel Servant, 18·22; Hotel-keeper, Innkeeper, Publican, 30·61; the lowest being General Shopkeeper, 4·00; Gamekeeper, Water-bailiff, 3·90; and Woollen Cloth Manufacture, 2·61.

At the latter age, 45 to 65 years, the mean mortality-rate per thousand living is, for Scotland, 24·34. In forty-one of the occupations the rate is

above this, the highest occurring under the heading of Jute Manufacture, 36·60; Earthenware, China, and Glass Manufacture, 37·19; Dock Labourer, 37·42; Mason, Bricklayer, Marble-Worker, 38·24; Messengers, Porters (not Government or Railway), 42·04; Dyer, Scourer, Bleacher, Calenderer, 47·95;

2	3	–	2	1	1	1	–	–	1	7	10	19	13	64	84	148
2	1	1	–	–	–	–	–	–	–	4	4	10	6	36	34	70
3	2	–	1	–	1	–	–	–	–	6	6	3	12	34	43	77

Again, in twenty-seven occupations the comparative mortality-figure exceeds that for all males—1000, being highest in Ironstone Miner, 1664; Dyer, Scourer, Bleacher, Calenderer, 1775; Hawker, 1839; and Hotel-keeper, Inn-keeper, Publican, 2308; lowest in Gamekeeper, Water-bailiff, 487; Engine and Machine Maker, 484; Railway Engine-driver, Stoker, 481; General Shopkeeper, 420; and Woollen Cloth Manufacture, 286.

In considering the occupations more in detail, we may premise by stating that, with one thousand as the comparative mortality-standard for death from all causes in males, 25 to 65 years of age, in Scotland, 114 die from Diseases of the Nervous System; 123 from Diseases of the Circulatory System; 219 from Diseases of the Respiratory System, not including Phthisis; 65 from Diseases of the Digestive System; 12 from Intemperance; 45 from Diseases of the Urinary System; 47 from Cancer; 168 from

Phthisis; 79 from Accident; and 128 from all other Causes not stated above. Table XXVIII.

1. *Clergyman, Priest, Minister* have a comparative mortality-figure of 581, that for all males being 1000, and show a death-rate at age 25 to 45 years of 4·46, and at ages 45 to 65 years of 18·38 per thousand living. The main causes of death in the Clerical profession are Diseases of the Nervous System, of the Respiratory System, including Bronchitis and Pneumonia, and of the Circulatory System. Tables XXVI., XXVII., XXVIII.

2. *Advocate, Writer to the Signet, Solicitor* show a comparative mortality-figure of 901, their death-rate at ages 25 to 45 years being 7·50 per thousand living, and between 45 to 65 years 27·43. Much the same may be stated as to the chief causes of mortality among them as among the previous class; while, in addition, Liver Disease, Phthisis, and Cancer claim a not inconsiderable proportion.

3. *Physician, Surgeon, General Practitioner, and Dentist* show a higher comparative mortality-figure than that for all males, being 1109; the mortality-rate among them at 25 to 45 years of age is 13·89 per thousand living, and 25·17 at ages 45 to 65 years. The mortality among the medical profession is high in each of the causes of death given.

4. *Schoolmaster, Teacher, Professor, Lecturer* have a comparative mortality-figure of 706, with a death-rate between 25 to 45 years of 6·51 per thousand, and 20·32 between 45 to 65 years. Among the causes of death Phthisis and Disease of the Nervous and Circulatory Systems stand highest; Cancer, Liver Disease, and Accident being comparatively infrequent causes.

5. *Farmer, Grazier* present the low comparative mortality-figure of 529, their death-rate per thousand living between 25 and 45 years of age being 5·09, and between 45 and 65 years 14·85. Diseases of the Respiratory and Circulatory Systems, with Phthisis, are prominent as causes of death.

6. *Agricultural Labourer, Farm Servant* show the very good comparative mortality-figure of 532, with a death-rate between 25 and 45 years of age of 4·52, and between 45 and 65 of 16·05, figures which speak well for their condition in Scotland. The diseases which chiefly cause death among them are those which affect the Pulmonary Organs, viz., Bronchitis, Pneumonia, and Phthisis; Liver Disease and Intemperance being here represented by very low figures.

7. *Gardener, Nurseryman, Seedsman* have a somewhat higher comparative mortality-figure than the last, although still a good one, viz., 649; the death-rate between 25 and 45 years of age being 5·50 per thousand

TABLE XXV.—Suicidal Deaths from Poison during the Ten Years 1881-90.

POISON.	M.	F.	POISON.	M.	F.

living, and between 45 and 65 years 19·59. Diseases of the Respiratory Organs are certainly the most prominent cause of death among them; but, at the same time, Diseases of the Nervous and Circulatory Systems, with Phthisis, stand well forward, as also Diseases of the Digestive Organs and of the Liver.

8. *Shepherd*, with a comparative mortality-figure of 530, a death-rate between 25 and 45 years of age of 5·69 per thousand, and between 45 and 65 of 13·80. The most fatal of the diseases on the tables in their case are Phthisis, Disease of Respiratory Organs, and Cancer; while a considerable portion succumb to Diseases of the Digestive System, including Liver Disease.

9. *Gamekeeper, Water-Bailiff* show a comparative mortality-figure of 487, less than half of that for all men, their death-rate between 25 and 45 years of age being 3·90 per thousand, and between 45 and 65 years 15·12. Phthisis and Accidents are most prominent in the tables as causes of death, followed by Diseases of the Nervous System.

10. *Fisherman* has a comparative mortality-figure of 770, considerably higher than any of the preceding, whose occupation, as with the present, is chiefly in the open air. Their mortality-rate at ages 25 to 45 years is 9·24 per thousand living, and between 45 and 65 years it is 18·22. Accident stands very high as a cause of death among them, and Phthisis follows not far behind, the proportions being 169 of the former, and 142 of the latter; Diseases of the Respiratory, Nervous, Circulatory, and Digestive Systems (the latter including Disease of Liver), and Intemperance are also somewhat prominent.

11. *Coachman, Cabman, Groom*, with the high comparative mortality-figure of 1271; their death-rate per thousand living between 25 and 45 years of age being 12·88, and between 45 and 65 years 34·47. Diseases of the Respiratory Organs and Phthisis are far the most marked causes of death, while Diseases of the Nervous, Circulatory, and Digestive Systems (the latter including Disease of the Liver), and Intemperance, as also Accident, are high.

12. *Carter, Carrier, Vanman*, with a comparative mortality-figure of 1157, the mean annual death-rate between 25 and 45 years per thousand being 10·50, and between 45 and 65 years 33·61. The largest proportion of deaths of men thus employed occurs from Diseases of the Respiratory System, including Bronchitis and Pneumonia, from Phthisis, Accident, Diseases of Circulatory System, and at the same time Diseases affecting the Digestive Organs (including Liver Disease), and Intemperance, are well marked causes.

13. *Commercial Traveller* has a comparative mortality-figure of 964, with a death-rate of 11·75 per thousand at ages 25 to 45 years, and of 22·47 at ages 45 to 65 years. Phthisis, Diseases of Respiratory, Nervous, and Digestive Systems cause the largest mortality, and it may be noted that Disease of the Liver and Intemperance stand high.

14. *Brewer, Distiller* have a comparative mortality-figure of 1048, their death-rate between 25 and 45 years being 11·96 per thousand, and between 45 and 65 years 25·93. Diseases of the Respiratory Organs stand first as a cause of death, followed by Phthisis, Diseases of Circulatory and Digestive Systems; half of the latter being Disease of Liver and Intemperance.

15. *Hotel-keeper, Inn-keeper, Publican*, with the enormous compara-

tive mortality-figure of 2308, a death-rate of 30·61 per thousand living between 25 and 45 years of age, and 49·27 between 45 and 65 years. Diseases of the Nervous System are the cause of the largest proportion of deaths, followed by Diseases of the Digestive System, Disease of the Liver being almost three times that of the remaining diseases of this System. Phthisis and Diseases of the Respiratory Organs are also high, and here Intemperance, as a cause of death, is at its maximum.

16. *Inn, Hotel Servants,* have a considerable mortality-figure of 1445, their death-rate at ages 25 to 45 years is 18·22 per thousand, and between 45 and 65 years 32·59. In this occupation Phthisis, of the diseases under consideration, causes by far the heaviest mortality, followed by Diseases of the Respiratory Organs; while those of the Nervous and Circulatory Systems are not infrequent, Intemperance being also a marked cause.

17. *Domestic Indoor Servant* have the very good comparative mortality-figure of 599, a death-rate of 8·03 per thousand at ages 25 to 45 years, and of 12·62 at 45 to 65 years. Phthisis stands pre-eminently forward as

TABLE XXVI.—Death-rates of Males, 25–65 Years of Age, in different Occupations,

Reference Number	OCCUPATION.	Mean Annual Death-rate per 1000 living. 1890, 1891, 1892. Years of Age. 25–45.	45–65	Comparative Mortality Figure. 1890–91–92. Years of Age. 25–65.

35	Skinner, Furrier, Tanner	5·75	21·34	698
36	Saddler, Harness, Whipmaker	7·15	21·58	759

a cause of death, and is apparently followed by Diseases of the Nervous System. Intemperance is here a well-marked cause.

18. *Law Clerk*, with a comparative mortality-figure of 1176, a death-rate of 12·38 per thousand at ages 25 to 45 years, and of 31·01 at ages 45 to 65 years. Phthisis causes a heavy mortality in this occupation, as also do Diseases of the Respiratory Organs, and Diseases of the Nervous System occupy a not unimportant place. Intemperance stands very high.

19. *Commercial Clerk*, with a comparative mortality-figure of 1005, a death-rate between 25 and 45 years of age of 12·35 per thousand living, and of 23·27 at ages 45 to 65 years. The most fatal diseases in this occupation are, as in the last, with the addition of a high death-rate in the case of Diseases of the Digestive Organs generally.

20. *Bank and Insurance Service*, with a comparative mortality-figure of 889, a death-rate of 9·83 per thousand at ages 25 to 45 years, and of 22·59 at ages 45 to 65 years. Phthisis is not so high as in the last two, but is still the highest as a cause of death; and Disease of the Urinary Organs is very high, being much above that for all males.

69	Railway Porters and Servants	68	108	27	37	78	10	7	-	34	44	122	186	97	818
70	Messengers, Porters (not Government or Railway)	161	230	64	198	161	64	9	14	64	83	212	78	124	1461
71	Hawker, &c.	117	336	103	220	172	48	14	34	55	62	274	144	260	1859
72	Dock Labourer	86	157	43	126	220	55	-	20	43	70	177	239	149	1385
73	General Labourer	141	145	48	139	137	44	16	14	41	49	180	95	169	1218

21. *Chemist, Druggist*, with a comparative mortality-figure of 925, a death-rate of 11·62 at ages 25 to 45 years, and of 20·94 at ages 45 to 65 years. Phthisis and Diseases of the Nervous and Urinary Systems are high as causes of death, as also is the case with Liver Disease and Intemperance.

22. *Grocer*, with a comparative mortality-figure of 917, a death-rate of 10·20 at ages 25 to 45 years, and of 23·17 at ages 45 to 65 years. Phthisis, Diseases of Respiratory Organs and of the Digestive System, including Disease of the Liver, Intemperance, and Diseases of the Urinary Organs, are the most marked causes of mortality in this occupation.

23. *Draper, Linen-draper, Mercer*, with a comparative mortality-figure of 872, a death-rate between 25 and 45 years of 11·33 per thousand, and one of 19·04 between 45 and 65 years. But for the large mortality from Phthisis, those thus occupied would have a much better comparative mortality-figure than they have, the figures for every other cause being below those for all males, except in Diseases of the Urinary Organs, which is here one above.

24. *Ironmonger, Hardware Dealer*, with a very good comparative mortality-figure of 559, a death-rate of 6·60 per thousand between 25 and 45 years of age, and of 13·45 between 45 and 65 years. This occupation has apparently a most excellent record as regards Liver Disease and Intemperance, both closely connected with each other.

25. *Coal Merchant*, with a comparative mortality-figure of 873, a death-rate of 8·22 per thousand at 25 to 45 years of age, and of 24·80 at 45 to 65 years. Cancer stands prominently forward as a cause of death in this occupation, Phthisis being low, Intemperance is above the average.

26. *General Shopkeeper*, with the very low comparative mortality-figure of 420, their death-rate between 25 and 45 years of age being 4·00 per thousand, and between 45 and 65 years 11·85. The results of Intemperance as a cause of death may be here noted.

27. *Dairyman, Milk-seller*, with a comparative mortality-figure of 797, a death-rate of 8·39 per thousand between 25 and 45 years of age, and of 21·02 between 45 and 65 years. Deseases of the Circulatory System and Cancer are the most marked conditions which caused the mortality among those engaged in this occupation.

28. *Fishmonger, Poulterer, Game-dealer*, with a comparative mortality-figure of 940, a death-rate of 9·21 between 25 and 45 years of age, and of 26·06 between 45 and 65 years. Liver Disease, Intemperance, and Diseases of the Urinary Organs and of the Nervous System are chiefly to be noted as causes of death among those employed as above.

29. *Butcher*, with a comparative mortality-figure of 1098, a death-rate between 25 and 45 years of age of 11·44 per thousand living, and one of 29·19 between 45 and 65 years. Phthisis again stands high as a cause of death, as also do Diseases of the Nervous and Circulatory Systems, while Intemperance and its results are very marked.

30. *Miller*, with a comparative mortality-figure of 779, a death-rate of 7·04 per thousand at ages 25 to 45 years, and of 22·71 at ages 45 to 65 years. Diseases of the Respiratory Organs are in this occupation decidedly the most common cause of death.

31. *Baker, Confectioner, Pastry-cook*, with a comparative mortality-figure of 1000, the exact standard number for all males, a death-rate between 25 and 45 years of age of 9·31, and of 28·61 between 45 and 65

years. The causes of death, which are above the standard for all males, are Disease of the Circulatory System, all Diseases of the Digestive System, Intemperance more than double, Diseases of the Urinary Organs, and Phthisis.

32. *Hairdresser*, with the high comparative mortality-figure of 1468, a death-rate between 25 and 45 years per thousand living of 18·10, and between 45 and 65 years of 33·88. In this occupation Phthisis, Intemperance, Diseases of the Respiratory, Digestive, and Urinary Systems are the most frequent causes of death.

33. *Tailor*, with a comparative mortality-figure of 1091, a death-rate between 25 and 45 years of 11·49 per thousand, and between 45 and 65 years of 28·79. Phthisis, Intemperance, and Diseases of the Digestive and Urinary Systems are the more frequent causes of death.

34. *Shoemaker*, with a comparative mortality-figure of 1201, a death-rate of 11·88 between 25 and 45 years of age, and of 33·07 between 45 and 65 years. Phthisis, Diseases of the Nervous, Circulatory, Respiratory, and Urinary Systems, Intemperance, Liver Disease, and Cancer are all accountable for a large proportion of the deaths of shoemakers.

35. *Skinner, Tanner, Currier* have a comparative mortality-figure of 698, a death-rate between 25 and 45 years of age of 5·75 per thousand, and between 45 and 65 years of 21·34. Lung Affections generally, Cancer, and Accident apparently carry off the larger proportion of those thus employed.

36. *Saddler, Harness, Whip-maker* have a comparative mortality-figure of 759, the death-rate between 25 and 45 years being 7·15 per thousand living, and between 45 and 65 years it is 21·58. Disease of the Circulatory and Respiratory Systems are those among the selected affections which appear to be the most prominent causes of death, but not in a marked degree.

37. *Printer, Paper-ruler, Lithographer* have a comparative mortality-figure of 988, a death-rate at ages between 25 and 45 years of 9·71, and between 45 and 65 years of 27·36. Phthisis, Diseases of the Circulatory and Urinary Organs are to be noted as the chief causes of death.

38. *Watch and Clock-maker*, with a comparative mortality-figure of 1002—almost the standard—a death-rate of 14·60 per thousand at ages 25 to 45 years, and of 18·98 between 45 and 65 years. Phthisis, Liver Disease, and Cancer are the most marked causes of death here.

39. *Paper Manufacture*, with a comparative mortality-figure of 764, a death-rate between 25 and 45 years of 7·45 per thousand, and between 45 and 65 years of 21·24. Disease of the Circulatory Organs, Intemperance, and Accident account for many of their lives.

40. *Earthenware, China, and Glass Manufacture*, with a comparative mortality-figure of 1213, a death-rate between 25 and 45 years of 9·96, and between 45 and 65 years of 37·19. Diseases of the Respiratory Organs and Phthisis are the affections from which those occupied in this manner apparently suffer most.

41. *Cotton Manufacture* has a comparative mortality figure of 783, a death-rate between 25 and 45 years of 4·74 per thousand, and between 45 and 65 years of 27·09. The heaviest mortality in the above occurs from Diseases of the Respiratory and Nervous Systems, Phthisis, Liver Disease, Intemperance, and Affections of the Urinary Organs.

42. *Woollen Cloth Manufacture* has the exceedingly low comparative mortality-figure of 286. The death-rate between 25 and 45 years is 2·61

per thousand, and between 45 and 65 years it is 8·31. In those thus employed Cancer would apparently occur not unfrequently, as also diseases affecting the Urinary Organs.

43. *Dyer, Scourer, Bleacher, Calenderer* have a high comparative mortality-figure of 1775, a death-rate between 25 and 45 years of 18·08 per thousand living, and between 45 and 65 years of 47·95. Diseases of the Circulatory, Respiratory, and Urinary Systems, with Phthisis, are probably the most frequent causes of death. Intemperance also holds a prominent position.

44. *Flax and Linen Manufacture,* with a comparative mortality-figure of 1048, a death-rate between 25 and 45 years of 9·73, and between 45 and 65 years of 30·06. Phthisis and Diseases of the Respiratory Organs are common causes of death among those thus occupied.

45. *Jute Manufacture,* with a comparative mortality-figure of 10·91, a death-rate between 25 and 45 years of age of 7·23, and between 45 and 65 years of 36·60. Disease of the Respiratory System and Phthisis are especially prominent as causes of death, as also may be added those of the Nervous and Circulatory Systems.

46. *Mason, Bricklayer, Marble-worker,* with a comparative mortality-figure of 1441, a death-rate of 15·04 per thousand living at ages 25 to 45 years, and of 38·24 at ages 45 to 65 years. Phthisis, Diseases of the Respiratory and Circulatory Systems, as also Cancer, are most prominent as causes of death.

47. *Slater, Tiler* have a comparative mortality-figure of 1053, a death-rate of 8·39 at ages 25 to 45 years, and of 32·73 at ages 45 to 65 years. Accident is a very common cause of death to those so occupied. Disease of the Circulatory Organs, Intemperance, and Cancer also being frequent.

48. *Plasterer,* with a comparative mortality-figure of 969, a death-rate between 25 and 45 years of 9·87, and between 45 and 65 years of 26·17. Cancer, Intemperance, and Diseases of the Urinary and Respiratory Systems are all frequent causes of death.

49. *Plumber, Gasfitter,* with a comparative mortality-figure of 908, a death-rate of 9·44 at ages 25 to 45 years, and of 24·16 at ages 45 to 65 years. Phthisis and Accident stand most prominent as causes of mortality, Diseases of the Urinary Organs and of the Liver being also high.

50. *Painter, Paperhanger, Glazier,* with a comparative mortality-figure of 1116, a death-rate between 25 and 45 years of age of 10·81, and between 45 and 65 years of 31·16. Phthisis and Diseases of the Nervous, Circulatory, and Urinary Systems are here the most common causes of death, and Accident stands high.

51. *Upholsterer, Cabinet-maker, French Polisher,* with a comparative mortality-figure of 958, the death-rate between 25 and 45 years of age is 8·49 per thousand, and between 45 and 65 years it is 28·19. Phthisis, Diseases of the Respiratory Organs, Cancer, and Liver Disease are the apparent chief causes of death among men thus employed.

52. *Carpenter, Joiner,* with a comparative mortality-figure of 848, their death-rate between 25 and 45 years of age is 9·07, and between 45 and 65 years it is 22·09. Phthisis, Diseases of the Digestive and Urinary Systems, with Cancer, are the most marked—but by no means very much so—causes of death.

53. *Sawyer,* with a comparative mortality-figure of 976, a death-rate between 25 and 45 years of age of 8·70, and between 45 and 65 years of

28·63 per thousand living. Diseases of the Circulatory System and Cancer are the most prominent causes of death, and Accident stands high.

54. *Cooper, Hoopmaker, Bender,* with a comparative mortality-figure of 969, a death-rate between 25 and 45 years of age of 9·08, and between 45 and 65 years of 27·62. Disease of the Liver, Intemperance, Diseases of the Urinary Organs, Cancer, and Phthisis enter largely into the causes of death in this occupation.

55. *Coach, Carriage-maker,* with a comparative mortality figure of 856, a death-rate between 25 and 45 years of 8·23 per thousand, and of 23·77 between 45 and 65 years. Diseases of the Digestive Organs and Cancer are the apparent chief causes of death here.

56. *Shipwright, Ship and Boat-builder,* with a comparative mortality-figure of 850, a death-rate at ages 25 to 45 years of 7·38 per thousand, and 45 to 65 years of 25·33. Diseases of the Circulatory and Digestive Systems generally, and Accident, are the main causes of death.

57. *Blacksmith, Whitesmith,* with a comparative mortality-figure of 950, a death-rate of 9·18 per thousand living between 25 and 45 years of age, and of 26·57 between 45 and 65 years. Diseases of the Circulatory, Respiratory, and Digestive Systems, and Cancer, stand highest as causes of death.

58. *Engine and Machine-maker,* with the low comparative mortality-figure of 484, a death-rate of 5·35 per thousand between 25 and 45 years of age, and of 12·31 between 45 and 65 years. Diseases of the Respiratory System and Phthisis account for the greater number of deaths in this occupation.

59. *Boilermaker,* with a comparative mortality-figure of 1166, a death-rate between 25 and 45 years of age of 11·26, and of 32·64 between 45 and 65 years. Diseases of the Respiratory, of the Digestive, and of the Urinary System are, as compared with the mortality for all males, the chief causes of death in those thus employed, and Accident stands high.

60. *Fitter, Turner (Engine and Machine),* with a comparative mortality-figure of 920, a death-rate of 9·66 per thousand living at ages 25 to 45 years, and of 24·33 between 45 and 65 years. Phthisis and Respiratory Diseases generally hold a high place, as also do Diseases of the Digestive and Nervous Systems.

61. *Tin, Tin-plate, Tin Goods Manufacture,* with a comparative mortality-figure of 995, a death-rate between 25 and 45 years of 9·25, and between 45 and 65 years of 28·54. Phthisis is here a great cause of death, as is also Diseases of the Respiratory Organs generally, and Disease of the Urinary Organs is above that of the same for all males.

62. *Brass Manufacture,* with a comparative mortality-figure of 1019, a death-rate at ages 25 to 45 years of 9·24, and at 45 to 65 years of 29·63. Phthisis, Disease of Liver, and Intemperance stand prominent as causes of death.

63. *Coal and Shale Miner,* with a comparative mortality-figure of 973, a death-rate between 25 and 45 years of age of 7·03, and between 45 and 65 years of 31·57 per thousand living. Diseases of the Respiratory System and Accident are frequent causes of death.

64. *Ironstone Miner,* with a high comparative mortality-figure of 1664, a death-rate between 25 and 45 years of age of 10·02 per thousand, and between 45 and 65 years of 57·71. Diseases of the Respiratory Organs and

Phthisis, Affections of the Circulatory and Digestive Systems, and Accident, are marked causes of death.

65. *Mineral Oil Worker*, with a low comparative mortality-figure of 691, a death-rate between 25 and 45 years of age of 7·12, and between 45 and 65 years of 18·52. Accident, Phthisis, Pneumonia, and Diseases of the Digestive System are to be specially noted as causes of death in this occupation.

66. *Stone Quarrier and Dresser*, with a comparative mortality-figure of 889, a death-rate between 25 and 45 years of age of 8·54 per thousand, and of 24·95 between 45 and 65 years. Phthisis, Accident, and Diseases of the Digestive Organs are prevalent causes of death.

67. *Engine-driver, Stoker, Fireman*, with a comparative mortality-figure of 863, a death-rate between 25 and 45 years of age of 7·25, and between 45 and 65 years of 26·15. Accident, Diseases of the Respiratory

TABLE XXIX.—Occupations in the Order of their Comparative Mortality Figure.

Number.	Occupation.	Comparative Mortality Figure.	Number.	Occupation.	Comparative Mortality Figure.
1	Hotel-keeper, Innkeeper, Publican (15)	2308	33	Upholsterer, Cabinet Maker (51)	958
2	Hawker (72)	1839	34	Blacksmith, Whitesmith (57)	950
3	Dyer, Bleacher, &c. (43)	1775	35	Fishmonger, Poulterer (28)	940
4	Ironstone Miner (64)	1664	36	Chemist, Druggist (21)	925
5	Hairdresser (32)	1468	37	Fitter, Turner, &c. (60)	920
6	Messengers, Porters (not Govt. or Rly.) (71)	1461	38	Grocer (22)	917
7	Inn, Hotel Servant (16)	1445	39	Plumber, Gasfitter (49)	908
8	Mason, Bricklayer (46)	1441	40	Advocate, W.S., Solicitor (2)	901
9	Dock Labourer (73)	1385	41	Stone Quarrier and Dresser (66)	889
10	Coachman, Cabman, Groom (11)	1271		Bank and Insurance Service (20)	889
11	General Labourer (74)	1218	42	Coal Merchant (25)	873
12	Earthenware and Glass Manufacture (40)	1213	43	Draper, Lin'n Drap., Mercer (23)	872
13	Shoemaker (34)	1201	44	Engine Driver, Stoker, Fireman (not Agric., Rly., or Marine (67)	863
14	Law Clerk (18)	1176	45	Coachmaker (55)	850
15	Boiler Maker (59)	1166		Shipbuilder, Boatbuilder (56)	850
16	Carrier, Carter, Vanman (12)	1157	46	Carpenter, Joiner (52)	848
17	Painter, Paperh'ger, Glazier (50)	1116	47	Railway Porters and Srvts. (69)	818
18	Physician, Surgeon, General Practitioner, Dentist (3)	1109	48	Dairyman, Milkseller (27)	797
19	Butcher (29)	1098	49	Cotton Manufacture (41)	783
20	Tailor (33)	1091	50	Miller (30)	779
	Jute Manufacture (45)	1091	51	Fisherman (10)	770
21	Slater, Tiler (47)	1053	52	Paper Manufacture (39)	764
22	Flax and Linen Manufact. (44)	1048	53	Saddler, Harness Maker (36)	759
	Brewer, Distiller, &c. (14)	1048	54	Schoolmaster, Teacher, Professor, Lecturer (4)	706
23	Brass Manufacture (62)	1019	55	Skinner, Tanner, Currier (35)	698
24	Commercial Clerk (19)	1005	56	Mineral Oil Worker (65)	691
25	Watch and Clock Maker (38)	1002	57	Gardener, Nurseryman, Seedsman (7)	649
26	Baker, Confectioner (31)	1000	58	Domestic Indoor Servant (17)	599
27	Tin, Tinplate, Tin Goods Manuf. (61)	995	59	Clergyman, Priest, Minister (1)	581
28	Printer, Paper-ruler, Lithographer, (37)	988	60	Ironmonger (24)	559
29	Sawyer (53)	976	61	Agricultural Labourer (6)	532
30	Coal and Shale Miner (63)	973	62	Shepherd (8)	530
31	Cooper (54)	969	63	Farmer, Grazier (5)	529
	Plasterer (48)	969	64	Gamekeeper (9)	487
32	Commercial Traveller (13)	964	65	Engine and Machine Maker (58)	484
			66	Rlwy. Engine Driver, Stoker (68)	481
			67	General Shopkeeper (26)	420
			68	Woollen Cloth Manufacture (42)	285

The numbers in brackets refer to the occupation number in the preceding tables.

and Circulatory Organs, are relatively common causes of death as compared with all males.

68. *Railway Engine-driver, Stoker*, with a low comparative mortality-figure of 481, a death-rate between 25 and 45 years of age of 5·55 per thousand, and between 45 and 65 years of 11·81. Accident here stands very high as a cause of death.

69. *Railway Porters and Servants*, with a comparative mortality-figure of 818, a death-rate between 25 and 45 years of age of 7·29, and between 45 and 65 years of 23·99. Accident, Phthisis, Diseases of the Respiratory and Circulatory Systems cause the largest proportion of deaths in those so employed.

70. *Messengers, Porters* (*not Government or Railway*), with the high comparative mortality-figure of 1461, a death-rate between 25 and 45 years of age of 13·48 per thousand living, and between 45 and 65 years of 42·04 Diseases of the Respiratory, Circulatory, Urinary, and Digestive Systems, Cancer, and Phthisis are common causes of death, as also is Intemperance.

71. *Hawker*, with the very high comparative mortality-figure of 1839, a death-rate between 25 and 45 years of age of 16·80, and between 45 and 65 years of 53·22. Diseases of the Circulatory and Respiratory Systems Phthisis, Cancer, and Accidents are common causes of death. Intemperance stands prominently forward.

72. *Dock Labourer*, with a comparative mortality-figure of 1385, a death-rate at 25 to 45 years of age of 14·11 per thousand, and at 45 to 65 years of 37·42. Diseases of the Circulatory, Respiratory Systems, Cancer, Phthisis, Accident, and Intemperance are to be here specially noted as causes of death.

73. *General Labourer*, with a comparative mortality-figure of 1218, a death-rate between 25 and 45 years of age of 12·67, and between 45 and 65 years of 32·44. The causes of death in those employed as Genera Labourers are much the same as with the last, viz., the Dock Labourers.

Table XXIX. gives the occupations in the order of their comparative mortality-figure.

In conclusion, it may be pointed out that many important and valuable facts may be found on the pages of the Report, and in the Tables which accompany it; and that perhaps more particularly in connection with the comparative longevity of those engaged in the various occupations which are considered, and the effects of certain diseases upon them.

I have the honour to be,

Sir,

Your most obedient Servant

R. J. BLAIR CUNYNGHAME.

General Registry Office of Births, &c.,
Edinburgh, 26*th December* 1894.

APPENDIX TABLES.

APPENDIX TABLE.—Total Number of Deaths from Selected Diseases during each of the Ten Years 1881–1890, in Scotland and its Groups of Registration Districts, with the average Annual Rate per 100,000 of the Population.

DISEASES.		Scotland.	Principal Town Districts.	Large Town Districts.	Small Town Districts.	Mainland-Rural Districts.	Insular-Rural Districts.

APPENDIX TABLE.—Mean Annual Mortality in the Three Years 1890, 1891, and 1892, at Successive Periods of Life, of Males engaged in various Occupations.

Note.—The "Years of Life" are the numbers of males enumerated at the Census of 1891 multiplied by three, and the deaths are those registered in the three years 1890, 1891, and 1892.

Reference Number.	Occupations.		Ages. 15–	20–	25–	45–	65 and upwards.
	All Males – –	Mortality per 1000 –	5·72	7·53	9·98	24·34	99·58
1	Clergyman, Priest, Minister.	Years of Life – –	–	219	7398	5385	1869
		Deaths – – –	–	1	33	99	205
		Mortality per 1000 –	–	4·57	4·46	18·38	109·68
2	Advocate, Writer to the Signet, Solicitor.	Years of Life – –	–	480	5598	2661	594
		Deaths – – –	–	1	42	73	97
		Mortality per 1000 –	–	2·08	7·50	27·43	163·30
3	Physician, Surgeon, General Practitioner, Dentist.	Years of Life – –	363	963	5328	2145	561
		Deaths – – –	2	6	74	54	76
		Mortality per 1000 –	5·51	6·23	13·89	25·17	135·47
4	Schoolmaster, Teacher, Professor, Lecturer.	Years of Life – –	2835	2643	10596	4527	579
		Deaths – – –	17	16	69	92	73
		Mortality per 1000 –	6·00	6·05	6·51	20·32	126·08
5	Farmer, Grazier.	Years of Life – –	17868	14646	59094	66807	35403
		Deaths – – –	28	46	301	992	3059
		Mortality per 1000 –	1·57	3·14	5·09	14·85	86·41
6	Agricultural Labourer.	Years of Life – –	69807	41073	78255	38130	10209
		Deaths – – –	169	190	354	612	1036
		Mortality per 1000 –	2·42	4·63	4·52	16·05	101·48
7	Gardener, Nurseryman, Seedsman.	Years of Life – –	5583	5634	17454	13728	5166
		Deaths – – –	13	25	96	269	524
		Mortality per 1000 –	2·33	4·44	5·50	19·59	101·43
8	Shepherd.	Years of Life – –	3384	3666	12309	8334	2049
		Deaths – – –	6	12	70	115	242
		Mortality per 1000 –	1·77	3·27	5·69	13·80	118·11
9	Gamekeeper, Water Bailiff.	Years of Life – –	606	1395	7185	3969	576
		Deaths – – –	2	3	28	60	73
		Mortality per 1000 –	3·30	2·15	3·90	15·12	126·74
10	Fisherman.	Years of Life – –	10791	11715	37323	19707	4377
		Deaths – – –	71	131	345	359	557
		Mortality per 1000 –	6·58	11·18	9·24	18·22	127·76
11	Coachman, Cabman, Groom.	Years of Life – –	5364	6495	18870	7020	1017
		Deaths – – –	22	38	243	242	150
		Mortality per 1000 –	4·10	5·85	12·88	34·47	147·49
12	Carter, Carrier, Vanman.	Years of Life – –	10317	11691	36771	15801	2454
		Deaths – – –	55	79	386	531	379
		Mortality per 1000 –	5·33	6·76	10·50	33·61	154·44
13	Commercial Traveller.	Years of Life – –	393	2124	10983	3516	357
		Deaths – – –	3	14	129	79	36
		Mortality per 1000 –	7·63	6·59	11·75	22·47	100·84
14	Brewer, Distiller, Rectifier.	Years of Life – –	1032	1782	6606	2970	498
		Deaths – – –	6	7	79	77	50
		Mortality per 1000 –	5·81	3·93	11·96	25·93	100·40

APPENDIX TABLE.—Mean Annual Mortality in the Three Years 1890, 1891, and 1892. (*Continued.*)

Reference Number.	Occupations.		Ages. 15-	20-	25-	45-	65 and upwards
45	Jute Manufacture.	Years of Life - -	7077	3180	5259	2568	441
		Deaths - - -	37	25	38	94	37
		Mortality per 1000 -	5·23	7·86	7·23	36·60	83·90
46	Mason, Bricklayer.	Years of Life - -	7266	8073	37689	19716	3330
		Deaths - - -	38	46	567	754	495
		Mortality per 1000 -	5·23	5·70	15·04	38·24	149·75
47	Slater, Tiler.	Years of Life - -	1302	1779	7269	3483	597
		Deaths - - -	3	4	61	114	82
		Mortality per 1000 -	2·30	2·25	8·39	32·73	137·35
48	Plasterer.	Years of Life - -	1152	1134	5571	2484	312
		Deaths - - -	4	5	55	65	39
		Mortality per 1000 -	3·47	4·41	9·87	26·17	125·00
49	Plumber, Gasfitter.	Years of Life - -	6291	4161	9219	2856	300
		Deaths - - -	40	18	87	69	24
		Mortality per 1000 -	6·36	4·33	9·44	24·16	80·00
50	Painter, Paperhanger, Glazier.	Years of Life - -	6225	5337	15078	5649	675
		Deaths - - -	36	45	163	176	79
		Mortality per 1000 -	5·78	8·43	10·81	31·16	117·04
51	Upholsterer, Cabinetmaker.	Years of Life - -	4662	3654	11193	4824	906
		Deaths - - -	22	30	95	136	108
		Mortality per 1000 -	4·72	8·21	8·49	28·19	119·20
52	Carpenter, Joiner.	Years of Life - -	14577	12219	39474	21732	4437
		Deaths - - -	58	76	358	480	562
		Mortality per 1000 -	3·98	6·22	9·07	22·09	126·66
53	Sawyer.	Years of Life - -	2079	1770	5403	2934	600
		Deaths - - -	7	16	47	84	108
		Mortality per 1000 -	3·37	9·04	8·70	28·63	180·00
54	Cooper.	Years of Life - -	2412	2550	6606	3078	606
		Deaths - - -	13	6	60	85	89
		Mortality per 1000 -	5·39	2·35	9·08	27·62	146·86
55	Coachmaker.	Years of Life - -	1785	1488	4131	1893	231
		Deaths - - -	11	8	34	45	35
		Mortality per 1000 -	6·16	5·38	8·23	23·77	151·52
56	Shipbuilder, Boatbuilder.	Years of Life - -	8772	10122	27633	13578	1899
		Deaths - - -	41	69	204	344	195
		Mortality per 1000 -	4·67	6·82	7·38	25·33	102·69
57	Blacksmith, Whitesmith.	Years of Life - -	10998	9738	27018	15696	2616
		Deaths - - -	42	50	248	417	394
		Mortality per 1000 -	3·82	5·13	9·18	26·57	150·61
58	Engine and Machine Maker.	Years of Life - -	9111	6993	14949	6501	696
		Deaths - - -	25	17	80	80	41
		Mortality per 1000 -	2·74	2·43	5·35	12·31	58·91
59	Boiler Maker.	Years of Life - -	5883	5124	13230	4779	321
		Deaths - - -	50	47	149	156	31
		Mortality per 1000 -	8·49	9·17	11·26	32·64	96·57
60	Fitter, Turner (Engine and Machine).	Years of Life - -	12543	9873	20085	8304	696
		Deaths - - -	73	72	194	202	77
		Mortality per 1000 -	5·82	7·29	9·66	24·33	110·63
61	Tin, Tinplate Worker, Tin Goods Manuf.	Years of Life - -	2247	1713	4218	1647	249
		Deaths - - -	10	15	39	47	34
		Mortality per 1000 -	4·45	8·76	9·25	28·54	136·55
62	Brass Manufacture.	Years of Life - -	3156	2361	5847	2160	192
		Deaths - - -	15	7	54	64	25
		Mortality per 1000 -	4·75	2·96	9·24	29·63	130·21
63	Coal and Shale Miner.	Years of Life - -	47811	39237	93702	35352	3063
		Deaths - - -	217	213	659	1116	416
		Mortality per 1000 -	4·54	5·43	7·03	31·57	135·81
64	Ironstone Miner.	Years of Life - -	1461	1125	3792	1698	132
		Deaths - - -	9	6	38	98	25
		Mortality per 1000 -	6·16	5·33	10·02	57·71	189·39
65	Mineral Oil Worker.	Years of Life - -	966	1395	3369	1350	96
		Deaths - - -	1	1	24	25	9
		Mortality per 1000 -	1·04	0·72	7·12	18·52	93·75
66	Stone Quarrier and Dresser.	Years of Life - -	3471	3633	12408	6534	1362
		Deaths - - -	11	13	106	163	138
		Mortality per 1000 -	3·17	3·58	8·54	24·95	101·32
67	Engine Driver, Stoker, Fireman (not Agr., Rly., or Marine).	Years of Life - -	3225	4161	18477	9498	1227
		Deaths - - -	14	28	134	246	126
		Mortality per 1000 -	4·34	6·28	7·25	26·15	102·69

APPENDIX TABLE.—Mean Annual Mortality in the Three Years 1890, 1891, and 1892. (*Continued.*)

Reference Number.	Occupations.		Ages. 15-	20-	25-	45-	65 and upwards

1895.

REPORT.

TO THE RIGHT HON.
LORD BALFOUR OF BURLEIGH.
Her Majesty's Secretary for Scotland.

GENERAL REGISTRY OFFICE OF BIRTHS, ETC.,
EDINBURGH, *30th October* 1895.

MY LORD,

I had the honour in 1894, in conformity with the requirements of the seventh section of the Scottish Registration Act, 17 and 18 Vict., cap. 90, to transmit to your predecessor in office, as Her Majesty's Secretary for Scotland, General Abstracts of the Births, Deaths, and Marriages registered in Scotland during the year 1893, along with the usual explanation and commentary.

At the same time my Twenty-ninth Annual Report on Vaccination was transmitted, in accordance with the nineteenth section of the Scottish Vaccination Act, 26 and 27 Vict., cap. 108.

I have now the honour to transmit the Detailed Annual Report, together with the relative Tables, regarding the Births, Deaths, and Marriages registered in Scotland during the same year (1893).

I have the honour to be,

MY LORD,

Your most obedient Servant,

STAIR AGNEW,
Registrar-General.

REPORT TO THE REGISTRAR-GENERAL,

BY R. J. BLAIR-CUNYNGHAME, M.D., F.R.S.E.

SIR,

The population of Scotland, as estimated to the 30th of June 1893, is 4,093,959, of these 1,976,487 being of the male sex, and 2,117,472 of the female.

This population is as usual for purposes of registration, primarily divided into five groups of districts. First come the Principal Town Districts, with a gross population of 1,629,600,—the males numbering 777,478, and the females 852,122; the Large Town Districts have a total population of

TABLE I.—Population estimated to the middle of each year; with the Number of Births, Deaths, and Marriages registered in Scotland during each of the Years 1855 to 1893, and their Proportion to the Population; also the Excess of Births over Deaths, the Illegitimate Births, and their Proportion to the Total Births.

YEARS	Estimated Population.	BIRTHS.		Deaths.	Marriages.	Excess of Births over Deaths.	Percentage to Population.			Percent. of Illegit. to Total Births.

Principal Towns above 25000 inhabitants. Large Towns above 10000 and under 25000 inhabitants. The Small Towns from 3000 to 10000 inhabitants from 1855 to 1881, but from 1881 and upwards the Small Towns have from 2000 to 10000 of population.

the Mainland-Rural Districts number 944,105 souls,—males 464,220, females 479,885; and the Insular-Rural Districts are credited with 124,777 inhabitants,—the males being 58,132, and the females, 66,645.

BIRTHS.

The births registered during the year 1893 number in all 127,110, a larger number than for last year by 2067, which gives a birth-rate of 3·10 per cent., or 310 births in every ten thousand of the population; somewhat higher than that for the previous year, and with the exception of 1891 the highest since 1888. The mean birth-rate for the last ten years is 3·18 per cent.

The male births number 65,010, the female 62,100; the former therefore exceed the latter by 2910. The births outnumber the deaths during the year by 47,440. The number of illegitimate births registered is 9467, equivalent to 7·45 per cent. of the total births, a somewhat higher rate than for last year. The male illegitimates are 4927, and the female 4540.

1893	3·272	2·161	0·804	3·261	2·061	0·687	3·189	1·838	0·612	2·771	1·668	0·494	2·201	1·508	0·351

The births are distributed as follows throughout the five Registration Districts:—in the Principal Town Districts the total number is 53,323, of whom 27,202 are males, and 26,121 females, together giving a birth-rate of 3·27 per cent.; in the Large Town Districts they number 17,152,—males 8763, females 8389, affording a birth-rate of 3·26 per cent.; in the Small Town Districts they are 27,728,—males 14,214, females 13,514, or at the rate of 3·19 per cent.; in the Mainland-Rural Districts they total to 26,161,—males 13,418, females 12,743, the rate to population being 2·77 per cent.; and in the Insular-Rural Districts they are 2746,—males 1413, females 1333, together giving a mortality-rate of 2·20 per cent. (Tables VIII. and IX.).

As regards the illegitimate births alone, the same tables show that in the Principal Town Districts 3804 were duly registered during the year, in the ratio of 7·13 per cent. of the total births,—males 1982, females 1822; in the Large Town Districts they were 1021, or 5·95 per cent. of all,—males 551, females 470; in the Small Town Districts they were 1940, at the rate of 7·00 per cent. of all,—males 984, females 956; in the Mainland-Rural Districts they were 2565, or 9·80 per cent.,—males 1350, females 1215; and in the Insular-Rural Districts they were 137 in all, or equal to 4·99 per cent. of the total births,—males 60, females 77. In other words 1 in every 14 of the children born in the Principal Town Districts was illegitimate; in the Large Town Districts the rate was 1 in every 16; in the Small Town Districts 1 in every 14; in the Mainland-Rural Districts 1 in every 10; and in the Insular-Rural Districts 1 in every 13; while for Scotland 1 child in every 13 was born out of wedlock during the year under review.

Table V. refers to the Principal Towns, and from it is seen how 10·09 per cent. of the total births in Aberdeen occurred without the bonds of matrimony; in Dundee 9·15 per cent. were of like nature; the rate in Perth being 8·54 per cent.; in Edinburgh 8·49 per cent.; in Glasgow 6·93 per cent.; in Paisley, 6·15 per cent.; in Leith 5·77 per cent.; in Greenock 5·93 per cent.; in Kilmarnock 4·17 per cent.; in Govan and Partick and in Coatbridge 3·96 per cent.

Table VI. indicates how the rate of illegitimacy varied in the different

---

counties in Scotland from 3·66 per cent., the minimum in Shetland, to 14·96 per cent., the maximum in Wigtown, followed pretty closely in Elgin with 14·76 per cent.; Banff with 13·89 per cent.; Kirkcudbright with 13·28 per cent.; and Aberdeen with 13·22 per cent. In fifteen counties the rate is under 7·0 per cent.; that for Scotland as a whole being 7·45 per cent. The lowest rates occur in Ross and Cromarty, 4·99 per cent.; in Clackmannan, 4·90 per cent.; in Dumbarton, 4·31 per cent.; and in Shetland, 3·66 per cent.

65,010 of the births in Scotland during the year were of the male sex,

SCOTLAND.	65010	62100	127110	60083	57560	117643	4927	4540	9467	1469	10

8·47 per cent. during October, 8·29 per cent. during July, 8·25 per cent. during August, 8·09 per cent. during September, 7·85 per cent. during November, 7·77 per cent. during December, and 7·49 per cent. during February.

The birth-rate for each ten thousand of estimated population in the following European states for the present year, is 425 in Hungary, 375 in Prussia, 367 in the German Empire, 366 in Italy, 338 in the Netherlands, 307 in Norway, 306 in Denmark, 295 in Belgium, and 285 in Switzerland.

MARRIAGES.

The number of marriages registered in Scotland during 1893 is 27,145, being 1525 fewer than during the previous year, and giving a marriage-rate of 66·31 in every ten thousand of the inhabitants as estimated. The mean average rate for the last ten years, 1883–92, is 67 per ten thousand. The rate for England during the year under review is 74 per ten thousand.

The rate varies considerably in each of the five Great Registration Districts, being for the present year 80·41 per ten thousand of the estimated population in the Principal Town Districts; in the Large Town Districts the rate is 68·72; in the Small Town Districts it is 61·19; in the Mainland-Rural Districts it is 49·44; and in the Insular-Rural Districts it is 35.10 per ten thousand. When compared with the corresponding rates for 1892, there is seen to be a decrease in each case with the exception of the Insular-Rural Districts, in which there is a slight increase.

This same Table VI. also shows how the marriage-rate varies in each county in Scotland, from 77·97 per ten thousand in Kinross, the highest, to 32·00, the lowest, in Sutherland. In seven counties the rate is above that for Scotland, as a whole, being 66·40 per ten thousand in Aberdeen, 67·20 in Forfar, 69·35 in Ayr, 70·23 in Stirling, 76·86 in Edinburgh, 77·82 in Lanark, and 77·97 as just said in Kinross. Those counties in which the lowest marriage-rates for the year occur are Caithness, where it is 42·68 per ten thousand, Shetland 41·79, Ross and Cromarty 38·35, Argyll 34·84, and Sutherland 32·00.

TABLE IX.—Proportion of Births in 1893. Percentage of Births to Population, and of Illegitimate to the Total Births; also the Proportion of Males to Females in the Legitimate, Illegitimate, and Total Births; with the Proportion of Mothers who bare Twins and Triplets in Scotland, and its Five Groups of Districts in 1893.

FIVE GROUPS OF DISTRICTS.	Percentage of Births to Population.	Percentage of Illegit. to Total Births.	Proportion of Males to every 100 Females in the			Proportion of MOTHERS who bare TWINS. — One in every	Proportion of MOTHERS who bare TRIPLETS. — One in every

SCOTLAND . . .	3·195	7·45	104·7	104·4	108·7	84·9	12562

Table V. shows the number and proportion of marriages in each of the Principal Towns in Scotland, the latter being as follows:—86·7 in every ten thousand of the estimated population in Glasgow, 85·7 in Edinburgh, 73·1 in Dundee, 80·5 in Aberdeen, 59·0 in Govan and Partick, 75·4 in Leith, 73·1 in Paisley, 64·1 in Greenock, 65·1 in Coatbridge, 84·1 in Perth, and 77·4 in Kilmarnock.

The fertility of each marriage is computed in the usual manner. The number of marriages registered in Scotland during the year 1887 was 24,876, and the legitimate births registered during the year now under review are 117,643, so that $\frac{117,643}{24,876}$ gives 4·73 as the average fertility of each marriage, or 473 children were born to every 100 marriages. In England the average number of children born to each marriage during the year was 4·56, or 456 to every 100 marriages.

Tables X., XI., and XII. afford information as to the numbers and proportions of marriages as performed in Scotland, and in its five primary Registration Districts, in accordance with the rites of the chief religious denominations. Thus, of the whole 27,145 celebrations throughout Scotland, 12,371 were performed by clergy of the Established Church, 5259 by those of the Free Church, 3048 by those of the United Presbyterian Church, 2489 by those of the Roman Catholic Church, 813 by those of the Episcopal Church, 1920 by clergy of other denominations than the above, while in 1245 the marriage was irregular in character, matrimony being entered into without clerical assistance. In other words, 45·57 per cent. of the marriages were performed in accordance with the forms of the Established Church, 19·38 per cent. in accordance with those of the Free Church, 11·23 per cent. with those of the United Presbyterian Church, 9·17 per cent. with those of the Roman Catholic Church, 2·99 per cent. with those of the Episcopal Church, 7·07 per cent. with those of other denominations than the above, while 4·59 per cent. of all were irregular,—the highest proportion that has yet been attained.

Upon making similar inquiry for the whole period since registration became law in Scotland,—*i.e.* since 1855 to the present time,—we find that of the total marriages registered during that period 45·51 per cent. were performed by ministers of the Established Church, 21·89 per cent. by those of the Free Church, 12·92 per cent. by those of the United Presbyterian Church, 9·34 per cent. by those of the Roman Catholic Church, 2·25 per

cent. by those of the Episcopal Church, 6·26 per cent. by clergy of other denominations, 1·46 per cent. of all being irregular.

In Table X*a*. there is given the number of marriages according to each denomination, as also the percentage of each to the total as they occurred in every county and in each of the Principal Towns. First, as to the Towns, it is seen that in Aberdeen and Perth over 50 per cent. of the whole fall to the Established Church; the lowest rates occurring in Glasgow, 32·35 per cent., Dundee, 31·68 per cent., and Govan and Partick, 30·28 per cent. The highest ratio of marriages as appertaining to the Free Church occurs in Perth, 23·92 per cent., and in Govan and Partick, 24·55 per cent.;

the lowest in Glasgow, 16·41 per cent., and Coatbridge, 16·18 per cent. Marriages as performed by clergy of the United Presbyterian Church are most marked in Edinburgh, 13·03 per cent., Paisley, 13·07 per cent., and Leith, 14·21 per cent.; least so in Greenock, 5·97 per cent., and Aberdeen, 4·51 per cent. In Greenock, 18·41 per cent. and in Coatbridge, 28·43 per cent. of the ceremonies fall to the Roman Catholic Church; those being least in Leith, 3·74 per cent., and Aberdeen, 1·72 per cent. Episcopal Church marriages show their highest proportion in Paisley, 6·14 per cent., Dundee, 6·61 per cent., and Edinburgh, 8·24 per cent.; the lowest in Greenock, 1·99 per cent., Kilmarnock, 1·78 per cent., and Coatbridge, 0·49 per cent. Marriages falling under other denominations bulk most largely in Glasgow, 10·87 per cent., and Paisley, 12·28 per cent.; least so in Edinburgh, 5·80 per cent., Leith, 4·86 per cent., and Perth, 3·14 per cent. Irregular marriages constitute 9·67 per cent. of the whole in Edinburgh, and 11·78 per cent. in Glasgow; the lowest proportion occurring in Perth, 3·14 per cent., and in Kilmarnock, 1·78 per cent., there being none at all in Coatbridge.

TABLE XI.—Marriages, 1855–1893. Number of Marriages in Scotland according to the Rites of the several Religious Denominations during each of the Years 1855–1893.

in Shetland, 22·69 per cent., in Orkney, 23·77 per cent., and in Selkirk, 29·94 per cent.; the smallest in Ross and Cromarty, 1·00 per cent., and in Inverness, 0·95 per cent. Marriages in the Roman Catholic Church attain their maximum in Lanark, 15·08 per cent., in Renfrew, 15·29 per cent., and in Dumbarton, 18·61 per cent.; the minimum being in Kincardine, 1·07 per cent., and in Elgin, 0·81 per cent.; none occurring in Shetland, Orkney, Caithness, Sutherland, Ross and Cromarty, Kinross, and Berwick. Marriages in accordance with the rites of the Episcopal Church attained their greatest proportion in Forfar where 5·15 per cent. of all were so registered during the year, in Edinburgh, 6·77 per cent., and in Nairn, 7·14 per cent.; they are least in Haddington, 0·92 per cent., in Orkney, 0·70 per cent., and in Fife, 0·65 per cent.; there being none in Shetland, Caithness, Sutherland, Kinross, Linlithgow, and Berwick. Marriages performed by clergy of other denominations bulk most largely in Shetland, 9·24 per cent., in Lanark, 10·01 per cent., and in Selkirk, 10·78 per cent.; least so in Inverness, 0·95 per cent., and in Haddington, 0·46 per cent.; there being none in Sutherland, Kinross, and Peebles. Irregular marriages are most to be noted in Edinburgh, 7·21 per cent., and in Lanark, 8·56 per cent.; least so in Kirkcudbright, 0·51 per cent., in Roxburgh, 0·37 per cent., in Argyll, 0·36 per cent., and in Ross and Cromarty, 0·33 per cent.; there being none in Shetland, Sutherland, Nairn, Banff, Kincardine, Kinross, Dumbarton, Bute, Haddington, Berwick, Selkirk, and Wigtown.

Tables XIII. and XIV. indicate the ages at which marriage was entered into by the contracting parties during the year. In the 27,145 marriages all the men but one, and all the women less four, stated their age on the occasion. 1702 of the husbands and 5224 of the wives were under 21

years of age upon entering the state of matrimony. Two of the bridegrooms were between 16 and 17 years of age, and eighteen between 17 and 18 years, while eight of the brides were between 15 and 16 years, and fifty-one of them were between 16 and 17 years of age at their marriage. On the other hand, twenty of the husbands and two of the wives were over 70 years, one of the former, a widower, stated he was 95, and one of the latter admitting to the somewhat mature age of 76 on taking to herself a helpmate. Table XIV. shows the proportion in which men and women married at different ages during the year, and it is there seen how in Scotland 2·71 per cent. of the former and 11·22 per cent. of the latter were under 20 years of age on this occasion; ratios exceeded in the case of the Principal and Large Town Districts. At ages between 20–25 years, 34·21 per cent. of the men and 43·86 per cent. of the women married; exceeded in both sexes in the Large and Small Town Districts. Between 25–30 years, 33·35 per cent. of the men and 26·60 per cent. of the women married during the year;

ratios exceeded in the case of the former in the Large Town Districts, Small Town Districts, and Mainland-Rural Districts, and in the latter in the Mainland and Insular-Rural Districts. 14·07 per cent. of the husbands and 9·20 per cent. of the wives were between 30–35 years; exceeded in the case of both in the Mainland and Insular-Rural Districts. Between 35–40 years, 6·97 per cent. of the bridegrooms and 4·65 per cent. of the brides married; proportions exceeded in the case of the former in the two Rural Districts, and in the latter in the Principal Town and Insular-Rural Districts. But 3·70 per cent. of the men and 2·23 per cent. of the women were between 40–45 years of age at marriage; exceeded in the case of the former in the Principal Town Districts and the two Rural Districts, in the latter in the Principal Town Districts alone. After this age the percentage of those who marry rapidly falls, and that in each District.

The number of bachelors who married spinsters during the year in Scotland is 23,575, while 705 bachelors mated with widows, 2066 widowers espoused spinsters, and 799 widowers united themselves with widows; in other words, 86·85 per cent. of the marriages were between bachelors

and spinsters, 2·60 per cent. between bachelors and widows, 7·61 per cent. between widowers and spinsters, and 2·94 per cent. between widowers and widows.

Table XVIII. gives the precentage of men and women who signed the Marriage Register by writing or by *mark*. In Scotland, as a whole, 97·30 per cent. of the husbands and 95·56 per cent. of the wives signed their names, leaving 2·70 per cent. of the former and 4·44 per cent. of the latter who used *mark*. In the Principal Town Districts 97·26 per cent. of the husbands and 95·20 per cent. of the wives signed their names; in the Large Town Districts the corresponding proportions were 96·74 per cent. and 95·74 per cent.; in the Small Town Districts they were 97·37 per cent. and 96·05 per cent.; in the Mainland-Rural Districts they were 98·61 per cent. and 97·81 per cent.; while in the Insular-Rural Districts, but 88·13 per cent. of the men signed and 74·89 per cent. of the women, which leaves 11·87 per cent. of the former and 25·11 per cent. of the latter who used *mark*.

In eight of the counties a greater proportion of the husbands used *mark*

cent. in Sutherland, 4·73 per cent. in Argyll, 5·54 per cent. in Dumbarton, 8·59 per cent. in Inverness, and 14·29 per cent. in Ross and Cromarty. In eight counties a larger proportion of the wives who married during the year signed by *mark* than is the mean of the same sex for Scotland, there being 5·45 per cent. so doing in Renfrew, 5·74 per cent. in Forfar, 5·78 per cent. in Lanark, 6·34 per cent. in Dumbarton, 6·72 per cent. in Shetland, 13·04 per cent. in Sutherland, 18·14 per cent. in Inverness, and 30·56 per cent. in Ross and Cromarty. In Orkney, Nairn, and Kincardine both spouses in all cases signed their names, as did all the husbands in Kinross, and all the wives in Berwick, Selkirk, and Kirkcudbright.

Like information is given at the foot of the table as to Edinburgh and Glasgow, the two chief towns in Scotland, where it is seen that in the former 99·08 per cent. of the men and 98·78 per cent. of the women married during the year signed their names, leaving 0·92 per cent. and 1·22 per cent. respectively who used *mark*. The corresponding proportions in Glasgow being 96·24 per cent. and 93·86 per cent. as signing, and 3·76 per cent. and 6·14 per cent. as using *mark*.

14·26 per cent. of the marriages during the year were registered during June, 12·74 per cent. during January, 12·60 per cent. during December, 11·99 per cent. during July, 7·38 per cent. during April, 6·90 per cent. during October, 6·86 per cent. during November, 6·37 per cent. during August, 6·28 per cent. during September, 5·41 per cent. during February, 5·16 per cent. during March, and 4·05 per cent. during May.

The marriage-rate for each ten thousand of estimated population in the undernoted European States, during the year 1893, is as follows:—64 in Norway, 71 in Denmark, 73 in the Netherlands, 78 in Switzerland and Italy, 76 in Belgium, 79 in the German Empire, 81 in Prussia, and 93 in Hungary.

DEATHS.

During the year 79,670 deaths were registered throughout Scotland, which gives a mortality-rate of 195 in every ten thousand of the population as estimated, or one death in every 51 of the inhabitants. Of these 39,585 are males and 40,085 females. The number of deaths during the present year is greater than for 1892 by 4125, and the rate although higher than for last year is less than for 1890 and 1891. The mortality-rate among the males alone is for the present year 200, and among the females 189 in every ten thousand of the sexes respectively. The mean death-rate for the last ten years is 193 per ten thousand of the population of the country.

On noting the rate of mortality in each of the five Great Registration Districts, it is seen (Tables XIX. and XX.) that in the Principal Town Districts 35,220 deaths were registered, being at the rate of 216 in every ten thousand of the inhabitants of the same,—the male deaths numbering 17,684, and the female 17,536; in the Large Town Districts the deaths were 10,842, equal to 206 in each ten thousand of the inhabitants of the same,—the males 5377, the females 5465; in the Small Town Districts the total is 15,981, or in the proportion of 184 per ten thousand of population, —the male deaths amounting to 7813, and the female to 8168; in the Mainland-Rural Districts the deaths are 15,745, equivalent to 167 per ten thousand of the inhabitants of the same,—the males 7841, and the females 7904; and in the Insular-Rural Districts they total to 1882, being in the proportion of 151 in every ten thousand of the population,—the male deaths

alone being 870, and the female 1012. The rate is thus considerably higher in the Urban Districts where it is in the proportion of 205 per ten thousand of the population than in the Rural where it is 165. The rate in the Principal and Large Town Districts, and for both sexes respectively, is higher than that for Scotland or for any other of the districts, and in each district except in the Insular-Rural the male rate is greater than that of the female.

Tables XXI. and XXII. give the deaths and proportionate mortality of the same in each of the Principal Towns of Scotland. Thus, in Glasgow, the total deaths registered during 1893 number 15,797, which is at the rate of 23·3 per thousand of its estimated population; in Edinburgh the deaths are 5266, and the corresponding rate 19·7; in Dundee they are 3494, and the rate 22·2; in Aberdeen they number 2393, a rate of 18·5; in Govan and Partick they amount to 2133, or rate of 20·6 per thousand; in Leith they are respectively 1363 in number, and rate 19·2; in Paisley they are 1518 and 22·0; in Greenock they are 1311, at the rate of 20·9; in Coatbridge they are 581, a rate of 18·5; in Perth they are 666, a rate of 21·9; and in Kilmarnock the deaths number 698, the mortality-rate being 24·0 per thousand of population.

TABLE XIX.—Deaths of Males and Females in Scotland, and its Five Groups of Districts, during each of the Years 1855–1893.

Tables XXIII. and XXIV. give the deaths of males and females at a series of ages, and the percentage of these to the numbers at the same ages estimated to be alive, and that in Scotland and each of the five Primary Registration Districts. Thus, of the children in Scotland presumably alive under one year of age, 17·408 per cent. of the males and 14·113 per cent. of the females died during the year; ratios which are exceeded in the case of both sexes in the Principal and Large Town Districts, to the greatest degree in the former, where 20·305 per cent. of the male and 16·332 per cent. of the female infants succumbed at this early age. The mortality-rate gradually falls in the remaining three districts, being at its lowest in the Insular-Rural Districts, where the male death-rate under one year is 8·755 per cent. and the female 7·321 per cent. In each district the male rate is above that of the female.

Under two years of age the death-rate for Scotland has fallen to 6·680 per cent. in the case of the males and 6·768 per cent. in that of the females; exceeded in the Principal and Large Town Districts and that for both sexes. The rate at this age is lowest in the Insular-Rural Districts. The female rate is higher than the male in Scotland, the districts in which this occurs being the Large Town Districts and Insular-Rural Districts.

Under three years of age the death-rate for Scotland is in the case of the males 2·668 per cent. and of the females 2·716 per cent.; exceeded in the Principal and Large Town Districts and for both sexes. It gradually falls throughout the other districts. In each district except the Large Town Districts the female rate is higher than the male.

Under four years of age the death-rate for the males throughout Scotland is 1·480 per cent. and for the females 1·545 per cent; exceeded in the case of both sexes in the Principal Town Districts and for the females in the Large Town Districts. In the Principal Town Districts, Large Town Districts, and Insular-Rural Districts the female rate is above that of the male.

Under five years of age the rate for both sexes in Scotland is nearly the same, 1·091 per cent. in the case of the males and 1·075 per cent. in that of the females; exceeded in the case of both sexes in the Principal and Large Town Districts. In the Large Town Districts, Small Town Districts, and Insular-Rural Districts the female rate is above the male.

During the undivided first five years of life the male rate is 6·054 per cent. and the female 5·370 per cent. of the children presumably alive, while during the following quinquennial period they have fallen in Scotland to 0·558 per cent. and 0·611 per cent.; proportions which are somewhat exceeded in the Principal and Large Town Districts. Between 10–15 years

TOTAL .	2·003	1·893	2·275	2·058	2·097	2·027	1·859	1·818	1·689	1·647	1·497	1·518

rate was for Scotland 0·740 per cent. and the female 0·679 per cent.; exceeded in the case of both sexes in the Principal Town Districts, as also in that of the females in the Large Town Districts and of the males in the Insular-Rural Districts. In the Large Town Districts the female rate was above that of the male. Between 30–40 years the mortality-rate in the case of both sexes in the Principal Town Districts and of the females in the Large Town Districts is above these for Scotland at the same age, and in the Large Town Districts and both Rural Districts the female rate exceeds the male. At ages over 40 years the rate gradually increases and that for the whole country and for each district, and, as a rule, the male death-rate is above that of the female. The male death-rate for Scotland at all ages is in the case of the males in the ratio of 200 for each ten thousand of the same sex, in that of the females it is 189. In the Principal Town Districts the corresponding proportions are 228 and 206 per ten thousand, in the Large Town Districts they are 210 and 203 per ten thousand, in the Small Town Districts they are 186 and 182 per ten thousand, in the Mainland-Rural Districts they are 169 and 165 per ten thousand, and in the Insular-Rural Districts 150 and 152 per ten thousand of the inhabitants.

Tables XXVI. and XXVII. refer to the Principal Towns in Scotland, the former giving the number of deaths in each town at the various periods of life, the latter the proportions of the same to those alive at like ages. At ages under one year the highest death-rate was in Dundee, where in every hundred infants of that age 24·84 died, followed by Glasgow, with 18·66, Kilmarnock, 18·50, Edinburgh, 17·88, Leith, 17·37, Govan and Partick, 17·34, Paisley 16·24, Perth, 16·12, Greenock, 15·97, Aberdeen, 15·28, and Coatbridge, 13·84. During the second year of life Govan and Partick show the heaviest mortality of 12·45 per hundred, followed by Dundee with 10·98, Glasgow, 10·74, Greenock, 9·15, Paisley, 7·58, Edinburgh, 7·08, Leith, 6·98, Kilmarnock, 6·55, Coatbridge, 6·28, Perth, 5·38, and Aberdeen, 4·21. At all ages under five a death-rate of 8·99 per cent. is indicated in Dundee, of 8·15 per cent. in Govan and Partick, 8·08

is 1946 per hundred thousand of the inhabitants as estimated to the middle of the year, that for the males alone being 2003, and for the females 1893, in each case higher than for the year previous. In the Principal and Large Town Districts the rate is in the case of the sexes conjointly, and of each sex separately, above the same for Scotland, being below that in the other districts. It is highest in the Principal Town Districts, viz., 2161 for both sexes; lowest in the Insular-Rural Districts where it is 1508 per hundred thousand.

During the year under review, the number of deaths registered as being due to Zymotic Diseases is 13,520, which is 2823 more than occurred from the same last year, and is in the ratio of 333 in every hundred thousand of the estimated population, and constitutes 17·10 per cent. of all the specified deaths. In the Principal and Large Town Districts this rate is exceeded; the lowest occurring in the Insular-Rural Districts. In the Large Town Districts the female rate is above that of the male, the reverse holding in the other Districts. (Tables XXVIII. and XXIX.)

In Table XXXII. is given the number and proportion of deaths from the chief Zymotic diseases, and from ordinary causes, so arranged as to exhibit the mortality due to each during five life periods. Thus, of the whole 13,520 deaths from Zymotics at all ages, 8982 occurred during the first five years of life, 932 between 5–10 years, 297 between 10–15 years, 2068 between 15–60 years, and 1241 at ages over 60; or 66·4 in every hundred such deaths took place during the first five years of life, 6·9 between 5–10 years, 2·2 between 10–15 years, 15·3 between 15–60 years, and 9·2 at ages over this; so that 75·5 per cent. of the total occurred during the first fifteen years of life; and Table XXXIII. shows that of the total mortality in Scotland; 30·28 per cent. of the deaths registered as occurring at ages under 15 years are due to Zymotics, 7·20 being the percentage of the same at ages over 15 years.

Measles caused 3639 deaths during the year, and of these 3356, or 92·2 per cent., were fatal to children under five years of age, and 228, or 6·3 per cent., were fatal during the next five years. Hooping-Cough comes next with 2026 deaths; 1935, or 95·5 per cent., of these occurring during the first

five years of life; 88, or 4·4 per cent., during the next quinquennial period; 2 deaths occurring between 10–15 years; none between 15–60 years; and 1 at a greater age than this. Diarrhœa and Dysentery caused 2655 deaths; 1976, or 74·4 per cent., at age 0–5 years; 36, or 1·4 per cent., between 5–10 years; 15, or 0·6 per cent., between 10–15 years; 242, or 9·1 per cent., between 15–60 years; and 386, or 14·5 per cent., at greater ages. From Influenza there is 1248 deaths; 95, or 7·6 per cent., of them during the first five years of life; 15, or 1·2 per cent., between 5–10 years; 20, or 1·6 per cent., between 10–15 years; 432, or 34·6 per cent., between 15–60 years; and 686, or 55·0 per cent., at greater ages. Continued Fevers caused 1021 deaths; the largest number of them, 677, or 66·3 per cent. of the whole, at ages between 15–60 years. Typhoid or Enteric caused the greatest number of such exits, 932 in all; 620, or 66·5 per cent., dying at ages between 15–60 years; 114, or 12·3 per cent., between 5–10 years; 110, or 11·8 per cent., between 10–15 years; 57, or 6·1 per cent., during the first five years of life; and 31, or 3·3 per cent., at ages above 60 years. Typhus Fever caused 51 deaths; 42, or 82·3 per cent., of them between 15–60 years of age. To Simple or Ill-defined Fever there were 31 deaths. Cerebro-Spinal Fever caused 5, and Relapsing Fever 2. To Diphtheria 992 deaths are placed; 660 of those, or 66·5 per cent., succumbing during the first five years of life; 237, or 23·9 per cent., between 5–10 years; 51, or 5·2 per cent., between 10–15 years; 41, or 4·1 per cent., between 15–60 years; and 3 at greater ages. Scarlet-Fever is the ascribed cause of 832 deaths; 495, or 59·5 per cent., during the first five years of life; 187, or 22·5 per cent., between 5–10 years; 65, or 7·8 per cent., between 10–15 years; 84, or 10·1 per cent., between 15–60 years; while 1 occurred at a greater age. Small-pox caused 68 deaths throughout Scotland; 11 of these during the first five years of life; 2 between 5–10 years; 1 between 10–15 years; 53 between 15–60 years; and 1 at ages over

60. Syphilis caused 181 deaths; 146, or 80·7 per cent., being young children; 26, or 14·4 per cent., between 15–60 years; and 6 at greater ages. Erysipelas caused 269 deaths; 89, or 33·1 per cent., of children under five years of age; 105, or 39·0 per cent., between 15–60 years; and 69, or 25·7 per cent., at greater ages. Puerperal Fever caused 252 deaths.

333 out of every hundred thousand of the population of Scotland are estimated to have succumbed to Zymotic diseases of one form or other during the year, and equivalent to 17·10 per cent. of the total specified deaths. In the Principal Town Districts the rate is 402 per hundred thousand of population, and 18·62 per cent. of the specified deaths; in the Large Town Districts the rate is 385 per hundred thousand, or 18·66 per cent. of the deaths; in the Small Town Districts it is 309 per hundred thousand, or 16·83 per cent.; in the Mainland-Rural Districts it is 224 to population, or 13·42 per cent. of the deaths; and in the Insular-Rural Districts the rate is 184 per hundred thousand of population, or 12·22 per cent. of the specified deaths.

Tables XXX. and XXXI. afford information of a like nature for the Principal Towns. Thus, in Glasgow, the proportion of deaths in every hundred thousand of its estimated inhabitants from Zymotics for the year is 449, equal to 19·25 per cent. of the total specified deaths. Measles accounts for 128 of the proportion, Hooping-Cough for 105, Diarrhœa and Dysentery for 80, Scarlet-Fever for 39, Diphtheria for 31, Fevers for 20 (2 Typhus, 18 Typhoid), Influenza for 12, and Small-pox for 4.

In Edinburgh the proportion is 285 per hundred thousand, at the rate of 14·48 per cent. of the total mortality. Measles and Hooping-Cough each account for 61 of this, Diarrhœa and Dysentery for 41, Influenza for 34, Diphtheria for 23, Scarlet-Fever for 21, Fevers for 16 (15 of them Enteric).

In Dundee the mortality-rate is 450 per hundred thousand of population, or 20·69 per cent. of the total deaths. To Measles is ascribed 148 of the above ratio, to Diarrhœa and Dysentery 129, to Hooping-Cough 85, to Fevers 27 (6 Typhus and 21 Enteric), to Diphtheria 23, to Influenza 10, to Scarlet-Fever 3, and to Small-pox 1.

In Aberdeen 207 in every hundred thousand of its inhabitants died from Zymotics during the year, or 11·76 per cent. of the total deaths were of this nature. Diarrhœa and Dysentery account for 57 of these, Influenza for 52, Diphtheria for 29, Measles for 20, Scarlet-Fever for 12, Fevers for 11 (1 Typhus, 9 Typhoid), Hooping-Cough for 5, and Small-pox for 1.

In Govan and Partick the rate is 511 per hundred thousand of population, or 24·83 per cent. of all deaths. To Measles 239 of this is ascribed, to Hooping-Cough 108, to Diarrhœa and Dysentery 65, to Diphtheria 27, to Scarlet-Fever 21, to Fevers 12 (10 being Enteric), and to Influenza 4.

In Leith the proportion is 348 to population, or 18·14 per cent. of all deaths. To Measles fall 78 of the above, to Diarrhœa and Dysentery 59, to Scarlet-Fever 52, to Diphtheria 49, to Hooping-Cough 34, to Fevers 24 (7 Typhus, 17 Typhoid), to Influenza and to Small-pox, each 14.

In Paisley 377 is the rate in which such deaths occurred, constituting 17·17 per cent. of all. For 81 of this ratio Measles is accountable, for 71 Fevers (70 of these Typhoid), for 41 Hooping-Cough, for 39 Diphtheria, for 22 Scarlet-Fever, and for 20 Influenza.

In Greenock the death-rate from Zymotics per hundred thousand of population is 447, or at the rate of 21·39 per cent. of all deaths. Measles accounts for 204 of this, Diarrhœa and Dysentery for 77, Hooping-Cough for 46, Influenza and Fevers, each for 29 (6 of the latter Typhus and 21 Typhoid), Diphtheria for 21, and Scarlet-Fever for 3.

In Coatbridge the rate is 353 to population, or 19·06 per cent. of all deaths. Diarrhœa and Dysentery account for 93 of the above, Hooping-Cough for 64, Fever for 58 (6 Typhus, 48 Enteric), Measles for 48, Diphtheria for 32, Scarlet-Fever for 16, and Influenza for 10.

In Perth the proportion of such deaths to population is 365, and rate per cent. of total deaths 16·64. Of the former Diarrhœa and Dysentery account for 93, Hooping-Cough for 76, Measles for 53, Scarlet-Fever for 43, Influenza for 30, Diphtheria and Fevers, each for 13 (3 of the latter Typhus, and 10 Typhoid.)

In Kilmarnock the proportion of such Zymotic deaths per hundred thousand of population is 722, equal to 30·09 per cent. of all deaths. Diarrhœa and Dysentery account for 206, Fevers, which are all Typhoid, for 155, Hooping-Cough for 110, Scarlet-Fever for 100, Influenza for 45, Measles for 41, and Diphtheria for 28.

TABLE XXXIII.—Number and Percentage of Deaths from the Zymotic and Ordinary Diseases at each Age.

AGE.	NUMBER OF DEATHS.			PERCENTAGE OF DEATHS AT EACH AGE FROM

1873	1,126	1893	68
1874	1,246		

There were 68 deaths from Small-pox throughout Scotland during 1893; of these 46 were males and 22 females. 28 of the males and 12 of the female deaths were registered in the Principal Town Districts; 1 male and 3 female deaths in the Large Town Districts; 6 male and 1 female death in the Small Town Districts; 11 male and 6 female deaths in the Mainland-Rural Districts; there being none in the Insular-Rural Districts.

During January 8 deaths from Small-pox were registered, during February 19, during March 8, during April 8, during May 5, during June 6, during July 2, during August none, during September 1, during October none, during November 2, and during December 9.

From Measles 3639 deaths were registered during the year, affording a mortality-rate of 90 per hundred thousand of population, or 4·60 per cent. of all the specified deaths; of these 1901 are males and 1738 females. The Principal and Large Town Districts indicate the heaviest mortality from this disease, 112 per hundred thousand of population in the former, and 136 in the latter, thus succumbing; the lowest rate is in the Insular-Rural Districts, 28 in like proportion.

Scarlet-Fever caused 832 deaths throughout Scotland, in the ratio of 20 per hundred thousand of population, and forming 1·05 per cent. of all deaths,—the male and female exits are the same, viz., 416. The Principal Town Districts show by far the largest mortality from this, viz., 28 per hundred thousand of the population of the same; the corresponding rate in the Insular-Rural Districts being but 4.

From Influenza a total of 1248 deaths is registered, equal to 30 in each hundred thousand of population, and 1·58 per cent. of all specified deaths, most marked in the Small Town Districts and in both Rural Districts,—male deaths number 593, female, 655.

To Hooping-Cough 2026 deaths are ascribed, at the rate of 50 in every hundred thousand of population, or 2·56 per cent of all deaths,—males, 935; females, 1091. The highest rate appears in the Principal and Large Town Districts, being 79 in the former and 55 in the latter; the lowest in the Insular-Rural Districts, 14.

Diphtheria caused 992 deaths, equal to 24 in each hundred thousand of population, and forming 1·25 per cent. of all deaths,—males, 480, females; 512. The death-rate from this disease was high in each district, but most markedly so in the Principal and Large Town Districts, being in the former 29, and in the latter 26 to the population as before.

The deaths from Continued Fevers number 1021, being in the proportion of 25 per hundred thousand of population, and forming 1·29 per cent. of all the deaths,—male deaths, 535; female, 486. The heaviest rate is in the Large and Small Town Districts, being 29 per hundred thousand of population in the former, and 32 in the latter; lowest in the Insular-Rural Districts, viz., 13. Typhus Fever caused 51 deaths, Relapsing Fever 2, Cerebro-Spinal Fever 5, and Simple or Ill-defined 31. Typhoid or Enteric Fever caused 932 deaths,—490 males; and 442 females; together being at the rate of 23 per hundred thousand of population. Table XXXVII. shows that 181 of the Typhoid deaths occurred in the Rural Districts, and formed 93·30 per cent. of the total fever mortality in the same; while in the Urban Districts, 751 deaths occurred from the same, equal to 90·81 per cent. of the whole fever mortality therein. Typhus caused 9 deaths in the Rural Districts and 42 in the Urban.

Diarrhœa and Dysentery caused 2655 deaths, equal to 65 in every

---

hundred thousand of population, and forming 3·36 per cent. of the total specified deaths,—male deaths, 1334; females, 1321. The highest rate from such diseases occurred in the Urban Districts, being in the Principal Town Districts 77, in the Large Town Districts 76, and in the Small Town Districts 66 to population of the same, the rate in the Insular-Rural Districts being but 12 in like ratio.

Cancer caused 2816 deaths, which is at the rate of 69 in every hundred thousand of the population of Scotland, or 3·56 per cent. of all the deaths registered therein during the year,—males, 1075; females 1741. The highest rates of mortality to population from this disease occur in the Principal Town Districts 72, Small Town Districts 68, and Mainland-Rural Districts 70. Tables XXX. and XXXI. show that in the towns themselves, the highest mortality from Cancer, during the year, was in Edinburgh, where 114 persons in every hundred thousand of its inhabitants died therefrom, followed by Aberdeen with 84, Kilmarnock with 72, Dundee and Leith each with 69, Glasgow with 65, Perth with 60, Paisley with 59, Coatbridge with 54, Greenock with 48, and Govan and Partick with 40.

Diseases of a Tubercular nature caused 9801 deaths, equal to 241 per hundred thousand of the population, or 12·40 per cent. of all deaths,—males, 4805; females, 4996. The above rates for Scotland are exceeded in the Principal Town Districts, where they are 284, or 13·13 per cent., in the Large Town Districts, where they are 261, or 12·68 per cent., in the Small Town Districts, where they are 225, or 12·27 per cent., falling in the two Rural Districts to 180, or 10·80 per cent. in the Mainland-Rural, and to 169 or 11·18 per cent. in the Insular-Rural Districts. Of such diseases Phthisis causes by far the largest number of deaths, 6921 of both sexes being returned as thus dying,—males, 3266; females, 3655; together equal to 170 per hundred thousand of population, or 8·75 per cent. of all deaths. Deaths from Phthisis occur in greatest proportion in the Urban Districts, in the Principal Town Districts 199 per hundred thousand of the population thus succumbing, in the Large Town Districts 175, and in the Small Town Districts 158, the corresponding ratios in the Rural being 132 in the Mainland-Rural, and 148 in the Insular-Rural Districts. At ages under 15 years in every hundred thousand deaths among males in Scotland, 333 occurred from Consumption, between 15–45 years 2294, and at ages over this 639; and among females at the early age 536 in every hundred thousand died from the same, 2578 between 15–45 years, and 541 at greater ages. On

ALL FEVERS	194	100·00	827	100·00

comparing the deaths from Phthisis with the total specified deaths in each of the Principal Towns, it is seen that in Aberdeen 10·88 per cent. were due to this disease, in Paisley 10·43 per cent., in Kilmarnock 9·74 per cent., in Glasgow 9·66 per cent., in Leith 9·62 per cent., in Perth 9·23 per cent., in Coatbridge 8·67 per cent., in Edinburgh and in Govan and Partick 8·26 per cent., in Dundee 8·08 per cent., and in Greenock 7·64 per cent. Tabes Mesenterica caused 968 deaths,—males, 519, females, 449; Tubercular Meningitis 1185,—males, 642, females, 543; and Scrofula 727,—males, 378, females 349.

From Diseases of the Brain and Nervous System there are 8739 deaths, at the rate of 215 per hundred thousand persons, and equal to 11·05 per cent. of all specified deaths,—male deaths, 4427, female, 4312. This proportion is exceeded in the Principal and Large Town Districts, being 230 to population in the former, and 243 in the latter; the lowest, 124, occurring in the Insular-Rural Districts. Among the towns Perth shows the highest mortality-rate from such affections, viz., 319 per hundred thousand of its estimated population, followed by Greenock 279, Paisley 268, Glasgow 240, Aberdeen 234, Kilmarnock 220, Edinburgh, 213, Dundee 209, Govan and Partick 206, Coatbridge 202, and Leith 176. Among Nervous Diseases in Scotland Apoplexy caused 2723 deaths,—males, 1231; females, 1492; Paralysis 1728,—males, 830; females, 898; Epilepsy 253,—males, 154; females, 99; and Convulsions 1152,—males 675; females 477.

Diseases of the Circulatory System account for 6449 deaths, equivalent to 159 in every hundred thousand of population, or 8·16 per cent. of all the deaths,—males number 3088, females, 3361. This rate is exceeded in the Small Town Districts and Mainland-Rural Districts, being 165 in the former, and 174 in the latter; it is lowest in the Insular-Rural Districts, 117. In the towns the mortality per hundred thousand of the respective population of each is 213 in Perth, 200 in Edinburgh, 168 in Dundee, 162 in Kilmarnock, 151 in Aberdeen, 150 in Glasgow, 145 in Paisley, 133 in Greenock, 125 in Leith, 109 in Coatbridge, and 91 in Govan and Partick.

Diseases of the Respiratory Organs, other than Phthisis, caused 15,000 deaths, at the rate of 369 per hundred thousand of the population of Scotland, or 18·97 per cent. of the total mortality in the same,—males, 7859, females, 7141. In the Districts the mortality-rate from such affections varies, in the Principal Town Districts it is 454 per hundred thousand of the inhabitants, or 20·99 per cent. of all deaths in the same; in the Large Town Districts 399 to population, or 19·37 per cent. of total deaths; in the Small Town Districts 316 to population, or 17·19 per cent. of deaths; in the Mainland-Rural Districts 276 to population, or 16·53 per cent. of deaths; and in the Insular-Rural Districts 209 per hundred thousand of

TABLE XXXVIII.—Monthly Deaths from Fever in Eight of the Principal Towns of Scotland during the Ten Years 1884–1893; specifying those from Typhus and Enteric Fever.

MONTHS.	Total Fever Deaths.	Typhus.	Enteric.	MONTHS.	Total Fever Deaths.	Typhus.	Enteric.
January .	272	42	222	July . .	203	32	159
February .	245	50	187	August .	242	35	205
March .	201	56	146	September .	295	31	253
April . .	228	69	154	October .	331	32	298
May . .	212	61	144	November .	316	42	268
June . .	185	34	135	December .	312	35	264

population, or 13·83 per cent. of the total deaths in the same. Bronchitis caused a total of 7119 deaths,—males, 3455, females, 3664; Pneumonia a total of 5446,—males, 3043, females, 2403; and Croup 687 in all,—male deaths, 389, female, 298. Among the Principal Towns in Dundee 520 deaths in every hundred thousand of its estimated population are due to Diseases of the Respiratory Organs, or 23·41 per cent. of all the deaths, in Glasgow these ratios are 508, or 21·79 per cent., in Govan and Partick 492, or 23·84 per cent., in Paisley 425, or 19·35 per cent., in Kilmarnock 413, or 17·19 per cent., in Perth 399, or 18·15 per cent., in Greenock 393, or 18·79 per cent., in Leith 384, or 19·97 per cent., in Edinburgh 373, or 18·98 per cent., in Coatbridge 369, or 19·93 per cent., and in Aberdeen 352, or 19·09 per cent.

From Diseases of the Digestive System a total of 5888 deaths is registered during the year, equal to 145 in every hundred thousand of population, or 7·45 per cent. of all deaths,—males, 2826, females, 3062. The mortality-rate from the same is higher in the Urban than in the Rural Districts, being highest in the Small Town Districts, 163, and lowest in the Insular-Rural Districts, 96 per hundred thousand of their respective populations. In the Principal Towns and in the same ratio to the population the proportions vary as follow:—in Leith being 157, in Edinburgh 156, in Aberdeen 155, in Glasgow 153, in Govan and Partick 151, in Perth 149, in Kilmarnock, 148, in Dundee 142, in Paisley 131, in Greenock 129, and in Coatbridge 122. Enteritis caused 1549 deaths; Peritonitis 726; Hernia 153; Liver Diseases 913; Ileus, Stricture of the Intestine, and Intussusception, together 454.

To Diseases of the Urinary Organs 2005 deaths are ascribed at the rate of 49 per hundred thousand of population, or 2·54 per cent. of all deaths,—males, 1171, females, 834. Acute Nephritis caused 442 deaths; Bright's Disease 775; Calculus 37; other diseases of Bladder and Prostate 357; while 394 are due to other diseases of the same system not specially differentiated.

Diseases of the Organs of Generation caused 551 deaths,—males, 14, females, 537; Ovarian Disease caused 66 deaths, and Uterine Affections 105. Diseases incidental to Parturition, other than Puerperal Fever, to which 252 deaths are due, cause 336, together giving a total of 588.

To Diseases of the Organs of Locomotion—of the Bones and Joints—

TABLE XXXIX.—The Twenty-two most fatal Causes of Death in Scotland in 1893, arranged in the order of their fatality.

DISEASES.	Proportion of Deaths to 100,000 living.	DISEASES.	Proportion of Deaths to 100,000 living.
Bronchitis	175	Developmental Diseases of Children	60

for 1966, Atelectasis for 144, Cyanosis, Spina Bifida, and other Congenital Defects for 316,—males, 170, females, 146.

To Old Age the death of 1527 men and 2708 women is ascribed, equal to a mortality of 104 in every hundred thousand of population, or 5·36 per cent. of all deaths. The male deaths registered during the year, as occurring at ages between 95 and 100, number 134; the female deaths at like ages 95; while 7 of the men and 16 of the women are stated to have been 100 years or over at death. Of the former, 3 were over 100, one of them—a labourer—was over 101, the second also a labourer was 102, and the third—a crofter—was 104 years old. Of the latter, 9 were over 100 years of age; one, the daughter of a carter, was 101; four were 102 years, three of them being widows, and one the daughter of a farmer; two were 103 years, one the widow of a grocer, the other a pauper; one the widow of a contractor was 105 years, and one a pauper was 107 years of age at death.

To Violence 2756 deaths are ascribed, equal to 68 in every hundred thousand of population of Scotland (male rate 99, female 38), or 3·49 per cent. of the deaths in the same,—males, 1950, females, 806. Accident or Negligence accounts for 2481 deaths,—males, 1765, females, 716. Those due to Violence other than Accident are 275,—males, 185, females, 90; and of those 23 are Homicidal and 251 Suicidal,—the male Suicides being 174, and the female Suicides 77.

Of the Accidental deaths 88 occurred in Mines and Quarries, 307 deaths were caused by Railways, or by other Vehicles, or by Horses. Burns and Scalds account for 285,—males, 122, females, 163. Accidental Drowning causes loss of life to 521 persons, over and above which 37 males and 36 females took their own lives in the same way. 65 males and 26 females were accidentally poisoned, and 19 males and 6 females committed suicide by means of poison.

The poisons which caused death accidentally were Alcohol in the case of 4 males and 1 female; Ammonia in the case of 1 female; Bisulphide of Carbon of 1 male, Bromide of Potassium of 1 male; Carbolic Acid of 1 male; Carbonic Acid Gas of 3 males; Carbonic Oxide Gas of 7 males and 2 females; Chloral Hydrate of 1 male; Chlorodyne of 2 males; Chloroform of 5 males and 2 females; Gaseous Chemical Effects, 1 male; Hellebore Powder, 1 female; Hydrochloric Acid, 1 female; Hydrocyanic Acid, 1 female; Laudanum, 11 males and 1 female; Opium of 3 males and 4 females; and Morphia of 6 males; Liniments of 1 male and 1 female; Lead of 3 males and 2 females; Phosphorous of 2 females; Podophyllin of 1 female; Scouring Liquor of 1 male; Strychnia of 1 male; Tobacco of 1 male; the result of Bee Sting, 1 male; Ptomaines, 2 males and 1 female; Not Stated of 9 males and 5 females. Over and above these a male died from the effects of eating High Game and a female from the effects of eating Putrid Butcher Meat. The Poisons by which suicide was effected are Carbolic Acid, 3 males and 1 female; Chloroform, 1 female; Liniment A.B.C., 1 male; Laudanum, 8 males and 1 female; Morphia, 1 male; Opium, 5 males; Nitrate of Potash, 1 female; Oxalic Acid, 1 female; Tartar Emetic, 1 male; Not Stated, 1 female.

Table XXXIXA. shows the deaths by Suicide, male and female, in Scotland, and the special method resorted to. Thus, 7 males and 2 females committed Suicide on Railways; 22 males shot themselves; 30 males and 6 females cut or stabbed themselves to death; 6 males and 8 females precipitated themselves from a height; 37 males and 36 females drowned themselves; 51 males and 17 females hanged themselves; 19 males and 6 females had recourse to poison; while 2 males and 2 females took their

own lives in some other method than the aforesaid. 68 of the male Suicides and 35 of the female occurred in the Principal Town Districts; 16 of the male and 10 of the female in the Large Town Districts; 39 of the male and 15 of the female in the Small Town Districts; 46 of the male and 16 of the female in the Mainland-Rural Districts; and 5 of the male and 1 female in the Insular-Rural Districts.

WEATHER AND ITS INFLUENCE ON THE MORTALITY.

The following remarks on the weather of 1893 are extracted from the Notes of the Astronomer-Royal, appended to the monthly Reports issued by the Registrar-General:—

The first half of *January* was very cold, but about the 17th the temperature rose generally throughout the country; hence the mean temperature is but slightly below the average. Barometric pressure, on the other hand, was high and steady, but not unprecedentedly so.

February was a seasonable month as to average temperature, although the beginning of the month and the third week were marked by a decidedly warm series of days and nights. Barometric pressure, while normal as to range, was lower than it has been since February 1885.

The month of *March* was singularly warm, dry, and calm, with the high and steady barometric pressure characteristic of such weather at that season. To find so warm a March it is necessary to go back ten years to 1883, when the mean temperature was two degrees warmer.

The month of *April* was unusually warm in temperature, with a large diurnal variation, with high and comparatively steady barometric pressure, and with a wind velocity under the average, in which eastern and western winds were most frequently represented. The rainfall, nearly the whole

TABLE XL.—Monthly Mortality and Mean Temperature in Scotland during 1893, compared with the Mean of the Ten Years 1881–1890.

	Year 1893.			1881–1890.

Year	47·5	79,641	12,000	12,000	45·8

of which fell from the 15th to the 20th of the month, was 31 per cent. under the average rainfall of the eight towns.

May was a month with unusually high temperature, with a diurnal variation a little under the average, high and comparatively steady barometric pressure, and a wind velocity slightly under the average, in which east winds were 2 days above, and west winds 2 days under, the mean. The temperature was 4°·4 above the average, being absolutely the warmest May since these observations began in 1856. The rainfall on the mean of the eight towns was 14 per cent. under the average.

June was, on the whole, a month with a temperature decidedly above the average, a mean rainfall nearly the average, and a barometric pressure and range a little above the average.

July was, on the average, a month with a barometric pressure and a temperature a little above the average, a daily range of temperature, a mean humidity, and a rainfall, both as regards amount and frequency of fall, the average.

The weather of *August* was characterised by a temperature higher than has been yet recorded since the Meteorological Society was established in 1855. An average rainfall, and a barometric pressure and range above the average. It was the sixth consecutive month of the year whose temperature was above the average.

The month of *September* was characterised by a marked predominance of westerly winds somewhat above the average strength, with a temperature and rainfall under the average. Barometric pressure was rather low, but a

TABLE XLI.—Meteorology of Scotland for 1893, deduced from Observations made at 55 Stations of the Meteorological Society of Scotland, the particulars for each of the Stations having been published in the Quarterly Reports of the Registrar-General; also, the Number of Births, Deaths, and Marriages registered during each Month of the Year 1893, as stated in the Quarterly Reports.

little higher at western than at eastern stations in the same latitude, resulting in a excess of northerly winds and a reduced temperature and humidity.

October was characterised by a barometric pressure and range under the average, a marked predominance of westerly and deficiency of easterly wind, and a mean temperature fully a degree above the average.

November was characterised by a marked predominance of northerly winds, a temperature fully a degree under the average, and a rainfall decidedly under the average, except at Aberdeen where it exceeded it.

December was marked by a very unsteady barometer, an unusual predominance of west and south-west winds blowing with a force considerably above the average, a very high temperature, and an excess of four rainy days.

Tables XL. and XLI. afford some information regarding the varying monthly meteorological conditions throughout Scotland, with the mortality corresponding thereto. The first of these tables shows the mean temperature for each month of the year, and for sake of comparison the like for a decennial period, 1881–90.

The mean temperature of the last month of 1892 was 34°·0, that of the succeeding month January 1893, showing a rise to 36°·3, the rise continuing without a break until the highest mean reading for any month of the year is attained in August 59°·4, after which it gradually falls, the mean of December, however, evidencing a slight rise upon that of the month immediately preceding it. The mean temperature for the year is 47°·5. From Table XLI. we gather how, with fair consistency, the mortality was greatest during the colder and more inclement months, the reverse holding good during the milder, inasmuch as 9·97 per cent. of the deaths were registered during January, 7·79 per cent. during February, 8·63 per cent. during March, 8·10 per cent. during April, 8·46 per cent. during May, 8·03 per cent.

TABLE XLII.—Showing the connection between certain Atmospheric Phenomena, especially Temperature, and the Deaths from certain Diseases and Classes of Disease, in Eight of the Principal Towns of Scotland, during each Month of the Year 1893.

during June, 8·16 per cent. during July, 8·00 per cent. during August, 7·24 per cent. during September, 7·45 per cent. during October, 9·07 per cent. during November, and 9·10 per cent. during December.

Table XLII. refers to various conditions as occurring in eight of the Principal Towns in Scotland, and particularly as to the monthly relation between certain meteorological states, and the deaths from some of the more ordinary diseases. Diseases of a Miasmatic nature, as a rule, caused their heaviest mortality during the earlier months of the year. From Small-pox there was a total of 40 deaths in these towns, such being registered during each month with the exception of August, September, and October, while throughout the country there were, it may be remembed, 28 more. Measles is most in evidence, during each month from January to July, when it suddenly falls as a cause of death, and remains low. Scarlet-Fever is most marked during the early and late months; while Hooping-Cough claims more lives during the later than the first six months of the year. Diphtheria is most to be noted during the last few months, as also is the case with Fevers. Diarrhœal Affections cause their highest death-rate during the summer and autumn months.

Phthisis claims many victims during each month, the largest number of deaths thus registered occurring during March, April, and May.

The more acute diseases of the Respiratory Organs cause many deaths, most marked, however, during January, February, March, November, and December, the winter and spring months, when climatic changes are in this country wont to be frequent and severe, while during the warmer months of summer and autumn the reverse holds; and much the same may be noted regarding Cardiac and Cerebral diseases as causes of mortality.

Tables XLIV. and XLV. are constructed to show the mortality as it

occurs in the same eight towns at four periods of life, *viz.*, in childhood, during adolescence, among adults, and the aged. Thus, among children (0–5 years) 13,112 died during the year, *i.e.*, 41·2 per cent. of all the deaths, and suffering in greatest numbers during the months of January, May, June, July, and December, those months during which deaths from Miasmatics generally and acute Lung Affections were registered in large numbers.

Of Adolescents (5–20 years) 2697 deaths are registered, equal to 8·5 per cent. of all the deaths, and in greatest proportion during the same months as was the case with children and with presumably the same explanation.

Among Adults (20–60 years) there are 9582 deaths, or 30·1 per cent. of all, the greatest number being registered during the months of January,

November, and December, months when diseases of the Respiratory Organs and of the Heart and Brain were well marked as causes of death.

Among the aged (60 years and over) there are 6415 deaths, or 20·2 per cent. of all, and these again were registered in largest numbers during the same months of January, November, and December, the spring months also standing out prominently in the same way, all with low temperatures.

I have the honour to be,

SIR,

Your most obedient Servant,

R. J. BLAIR CUNYNGHAME, M.D.

GENERAL REGISTRY OFFICE OF BIRTHS, &c.
EDINBURGH, 11*th October* 1895.

APPENDIX TABLES.

VACCINATIONS IN SCOTLAND—1893.

No. of Division, &c.	REGISTRATION GROUPS, DIVISIONS, AND COUNTIES.	Successfully Vaccinated.	Vaccination Postponed.	Insusceptible of Vaccine Disease			Died before Vaccination.	Removed from District before Vaccination, or otherwise unaccounted for.	Total Births for 1893.
				On the ground of Constitutional Insusceptibility.	In respect of the Children having already had Small-pox.	On the ground of previous Successful Vaccination.

Districts containing Parliamentary and Royal Burghs are printed in capitals, thus:—EDINBURGH. Districts containing Towns, of 2000 Inhabitants and upwards are printed in small capitals, thus:—Carluke.

N.B.—An asterisk "*" is prefixed to those Districts which have different names from the Parishes in which they are situated or are comprised of more, or parts of more, than one Parish, and the component parts of these Districts will be found at page 474.

A dagger "†" is prefixed to those Districts which consist of only a part of a Parish of the same name.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
14	Deerness	Part of St Andrews.
15	Eday and Pharay	Part of Stronsay and Eday.
22	North Ronaldshay	Part of Cross and Burness.
26	Sanday	Lady, and part of Cross and Burness.
37*b*	Keiss	Parts of Canisbay and Wick.
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59*b*	Carnoch	Parts of Contin and Urray.
86*b*	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs and part of Uig.
92*b*	Cannich	Parts of Kilmorack and Kiltarlity & Convinth.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
136	Elgin	Elgin, and parts of New Spynie, and St Andrews-Lhanbryde.
152	Enzie	Parts of Bellie and Rathven.
155*b*	Glenrinnes	Parts of Aberlour and Mortlach.
167	Seafield	Parts of Cullen and Rathven.
171*b*	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210*b*	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone and part of Glenmuick, Tullich, and Glengairn.
222*b*	Millbrex	Parts of Fyvie and Monquhitter.
227*b*	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
237*b*	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249*b*	Ythan Wells	Parts of Auchterless and Forgue.
272	Arbroath	Arbroath, and part of St Vigeans.
282	Dundee	Dundee, and part of Liff, Benvie, and Invergowrie.
294*b*	Kilry	Parts of Glenisla and Lintrathen.
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
328*b*	Ardoch	Parts of Blackford, Dunblane, and Muthill.
330	Auchtergaven	Parts of Auchtergaven and Monzie.
331	Balquhidder	Balquhidder, and part of Comrie.
344	Dowally	Part of Dunkeld & Dowally.
349	Dunkeld	Part of Dunkeld & Dowally.
355*b*	Foss	Parts of Blair-Athol and Dull
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Little Dunkeld, Methven, and Monzie.
379	Meigle	Meigle and part of Coupar-Angus.
386*b*	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and parts of Kinnoull and Scone.
393*b*	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394*b*	Strathfillan	Part of Killin.
394*c*	Tenandry	Parts of Blair-Athol and Moulin.
402	Anstruther-Easter	Anstruther-Easter and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino and part of Crail.
442	Kirkcaldy and Abbotshall	Kirkcaldy, Abbotshall, and part of Kinghorn
481*b*	Grangemouth	Parts of Bothkennar, Falkirk, and Polmont.
490	Stirling	Stirling, and part of St Ninians.
496	Dumbarton	Dumbarton and part of Cardross.
506	Ballachulish, etc.	Part of Kilmallie.
509	Cumlodden and Minard	Parts of Glassary and Glenaray.
513	Inveraray	Inveraray and part of Glenaray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
525	Lismore	Lismore and Appin, and part of Kilmallie.
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardchattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelvie	Part of Pennygown and Torosay
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
556	Lochranza	Parts of Kilbride and Kilmory.

* The actual number of Districts is 1057—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 5 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced
